A newly designed suspension system provides improved agility with a smooth and comfortable ride

Front and rear tie-down points add stability during transportation

C300 CS

You will now find the sleek design and high-calibre performance you would expect from high-quality electric wheelchairs in the brand new C300. No other electric wheelchair in this class can offer such a perfect blend of stability and agility at the best overall price. Permobil's passion for engineering gives you an even wider choice than ever before.

The CS system provides a comfortable, slightly contoured seat for customers who feel more comfortable and stable with a simple seating system. Several sizes and manual recline are standard and enable this seating system to fulfil the wishes of the most demanding users. The cover material is durable and easy to clean.

Manually adjustable centre legrest

Retractable footrest makes for easy transfers

Manually adjustable armrest angle

Manually adjustable backrest
