25-30 KM

MOTOR POWER

2 X 250 WATTS

A newly designed suspension system provides improved agility with a smooth and comfortable ride

Front and rear tie-down points add stability during transportation

C300 PS

You will now find the sleek design and high-calibre performance you would expect from high-quality electric wheelchairs in the brand new C300. No other electric wheelchair in this class can offer such a perfect blend of stability and agility at the best overall price. Permobil's passion for engineering gives you an even wider choice than ever before.

The PS seating system features versatility and adjustability. The sliding telescoping frame and adjustable seating enable you to grow with this seating system. The PS consists of an exceptionally durable tubular material, which ensures you can adapt the chair in all cases. The level of adjustability is unmatched – 5 settings for the footplate, armrests that can either fold up or be taken off and legrests that swing inwards or outwards.

Seat width and depth adjustable between 41 and 56 cm

Removable legrest makes for easy transfers

Fully adjustable footrest

Simple fold-up and removable armrests
