

*Invacare*<sup>®</sup> | **Comet<sup>®</sup> Ultra**

Built to support with performance  
and reliability

Ideal for those with larger body shapes, the new **Comet<sup>Ultra</sup>** offers a secure, supportive and powerful driving experience without compromising on style or functionality. Packed with all of the safety features and driving characteristics seen throughout the **Comet** family, the **Comet<sup>Ultra</sup>** will get you to your destination quickly and efficiently, in complete comfort and control.

## Features and options

### Improved suspension

New multi adjustable suspension to offer superior comfort to larger individuals.

### Reinforced seat column

Offers additional stability and safety when seated

### Reinforced height and width adjustable armrest

Can be easily adjusted to the individual and offers additional support when getting on and off the scooter

## Power, reliability and customisation

Due to a carefully thought out design process and a robust construction, the safety and stability of the **Comet<sup>Ultra</sup>** is never a concern; even for persons weighing up to 220kg. Developed with the highest quality components and safety features, the **Comet<sup>Ultra</sup>** makes a trustworthy companion no matter where you go. Flexibility and adaptability means you can customise your scooter to suit your unique style and individual preference.

## Complete comfort and support

The special contoured Ultra Seat has been developed in conjunction with therapists to ensure an optimum seating position and increased comfort. In addition, a pneumatically adjustable lumbar support allows for further comfort when seated if and when required. The reinforced seat base and adjustable armrests offer excellent support and allows the use of the armrest as additional support when getting on and off the scooter.
