Invacare®
Spectra XTR3

More choice, more style

LiNX® | **INVACARE®**
Yes, you can.

Exceptional style, power and performance at your fingertips

The Invacare Spectra XTR3 is a compact chair with modern aesthetics giving a fresh new look to match your lifestyle and personality. The chair boasts a powerful yet smooth driving experience, and now offers enhanced colour options for a stylish look combined with practical features to give you a highly functional everyday powerchair. Featuring:

• Our new larger 50Ah Gel batteries have a 25% increase in range than previous models ensuring a reliable journey.

• **LiNX control** technology makes going through doorways or approaching tables simple and straightforward with its low speed and creep control. **LiNX** also improves hold on slopes and reduces castor lock on soft surfaces, increasing your confidence and driving experience.

• Two speed options available up to 6 or 10km/h for a confident and powerful performance.

• Spring suspension system has been designed to provide a smoother and more comfortable drive.

• New quieter motors to effortlessly manoeuvre you through day to day activities.

• Having trouble staying on your intended course? Our optional **LiNX G-Trac®** technology detects and corrects the smallest deviations from your intended path, caused by a surface change for example, and reduces the number of corrective actions needed

• Its compact design combined with a small castor option is excellent for indoor manouverability.

G-Trac® Technology

Make it personal to you

There is now more choice to customise around your style, with a variety of over 42 colour combinations to choose from. You can select from a choice of 7 colour options for the shrouds...

Features and options

The Invacare Spectra XTR3 has a number of features and options providing greater choice to suit your requirements and lifestyle.

Modulite™ seating system

The foundation consists of a telescopic seat frame and side rail to allow quick and easy placement of individual armrests and accessories to suit your requirements.

Invacare Matrx® Backs

The different types of Matrx® backs can be combined with the Modulite seat system to give you optimal postural support and positioning.

Non marking tyres

Its black non marking tyres, available in two sizes, with black double front forks give the chair a stylish and sleek, modern look.

Control interface

The LiNX control on the Spectra XTR3 was developed with ease of use, simplicity and reliability in mind.

Key features include:

- Perfectly positioned and easy to use on/off button
- Light and effortless joystick movement for greater control
- Accurate battery display
- Instant speed adjustment dial
- Clear icon based menu
- Simple keyless lock function
