## ➤ Invacare® **Action<sup>3</sup> Junior** **NEW**

Invacare® **Action<sup>3</sup> wheelchair developed for children**

The *Invacare*® **Action<sup>3</sup> Junior** is an aluminium foldable manual wheelchair ideal for children between 4 and 10 years old. It is an easily adaptable chair that matches children's growing needs with multi adjustable functions such as seat widths, backrest, armrests and foot support heights. The **Action<sup>3</sup> Junior** also offers a large range of options to provide adequate clinical support.

  
**JUNIOR**

### ➤ **Developed for children**

The *Invacare® Action<sup>3</sup> Junior* benefits from dedicated sizes and adjustments developed especially for children. This light and finely balanced chair requires minimal effort to propel thereby reducing fatigue and stress, especially as the child can be seated in a comfortable manner that optimizes all activities.

### ➤ **Growing with the child**

Children grow and their needs change along the way. With the *Action<sup>3</sup> Junior* adjustments to the chair can mirror the needs of the child. This is achieved using the specifically designed multi-adjustable options; adjustable seat widths, armpad depths, multi-adjustable armrests, headrest, backrest heights, also the brakes can be adapted for either user or attendant use.

### ➤ **Easy storage**

For ease of storage or transportation the *Action<sup>3</sup> Junior* dismantles quickly and without fuss. It features quick release rear wheels, detachable armrests and swing in/out hangers that can be released single handed. With its folding backrest, the chair quickly reduces in size for putting into the boot of your car or storage.

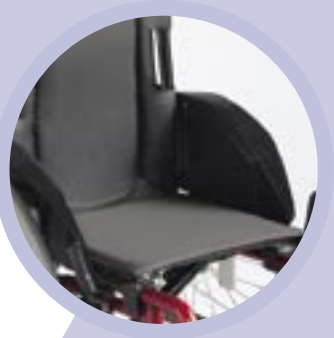

**Backrest types**

Invacare® Action<sup>3</sup> Junior offers 3 different types of backrests to suit user's needs : ① fixed, ② ratchet reclining, and ③ folding with heights from 35 to 43 cm.

**Multi-adjustable headrest**

Gives support in height and depth following child growth and needs.

**Clothesguards**

Height adjustable.

**Transparent tray**

Useful for playing, reading or other activities, including mealtimes.

**Smiley spokeguards**

Allow finger protection together with a touch of fun. Available on 22" rear wheels.

**Adjustable seat depth**

Between 25.5 to 30.5 cm, or 30 to 35 cm.

**Abduction**

This function is offered from 0° to 30° for improved positioning.

### Adaptability

Great adjustability in sizes and options allow Invacare® **Action<sup>3</sup> Junior** to grow with the child.

### 30,5 x 30,5 cm

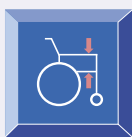

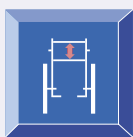

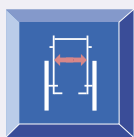

Smallest version of the **Action<sup>3</sup> Junior**, equipped with a fixed backrest.

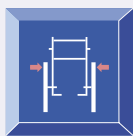

### Transit chair

A transit version is available offering seat height of 46 cm, with 1.5° seat angle.
