

Yes, you can.[®]

Invacare[®] Spectra Plus

Adaptable and practical

Adjustability makes the *Invacare[®] Spectra Plus* the unrivalled market leader for the power chair user who demands more than just mobility. An easily manoeuvrable chair with a wide range of options makes it the ideal choice suited to many different environments.

➤ Designed for you

The *Invacare*® **Spectra Plus** has been designed to suit both youngsters and adults, with a maximum user weight of 114 kg. A wide range of seat sizes allows you to achieve an optimum fit, with additional adjustments as standard to ensure maximum support and comfort.

➤ Control and safety

The **Spectra Plus** is fully CE marked and has passed the ISO 7176-19 Crash Test making it suitable for transportation.

Whether in constant or occasional use, the **Spectra Plus** is fitted with the choice of Dynamic or Penny & Giles controls to give not only the best drive performance available, but also allow a whole host of specialist controls to be fitted to ensure continual independence.

➤ Improved aesthetics

Improved design and styling provides a very functional and adaptable chair. The **Spectra Plus** has a stylish frame design in a choice of six attractive frame colours and five upholstery styles. Just choose the best option for you.

➤ Comfort and support

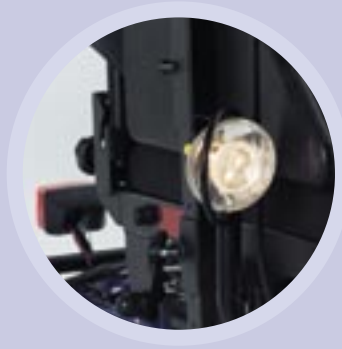

Powered wheelchairs are often used for long periods of time, and it is important that you feel comfortable and at ease, so that you can concentrate on the important things in life whether at work or at play!

The **Spectra Plus** features a wide choice of seating options for optimum posture control.
