

Yes, you can.

Invacare® **Storm³ True Track**

TOTAL DRIVING EXPERIENCE

The *Invacare*® **Storm³ True Track** gives you more control over your life!
New technology enables you to...

- go further and faster
- overcome obstacles more easily
- have more control indoors and outdoors, and over obstacles
- easily drive straight across slopes and uneven surfaces

FURTHER AND FASTER

New generation motors without the need for a gearbox. So improved efficiency gives more range, power and ... silence! You can also climb obstacles more easily.

YOU'RE IN CONTROL

True Track responds immediately and sensitively giving you confidence indoors, as well as tackling obstacles outdoors. **True Track** can be programmed to meet your individual needs and gives you even more control with the wide range of *ACS systems.

AS IF ON RAILS...!

True Track measures the wheels rotation, and then delivers the power, so you can drive directly across slopes, kerbs and uneven surfaces without the need to correct. **True Track** follows your 'joystick, as opposed to gravity!

RELIABLE, PROGRAMMABLE AND CHEAP TO RUN!

True Track offers reliability, efficiency and flexibility. The 'gearless brushless motors' have no wearing parts, so they are extremely reliable and require no servicing. So, we give 5 years *warranty on motors! In addition, **True Track's** maximum regulated speed can be easily reset without loss of power.

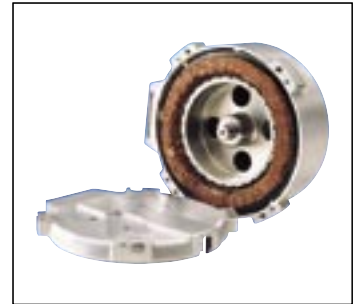

TRUE TRACK FEATURES

New rear-anti-tippers with suspension
for improved rear stability and a better driving performance

Declutching lever
New ergonomically designed declutching lever; now can also be used as a controlled brake

'Gearless brush-less motors'...
are highly efficient, with 85% of the motor's energy going directly to chair motion.
