Invacare[®] Topan

NEW

Where individuality meets performance

The *Invacare[®] Topan* has been developed to combine power and adaptability. Designed to be suitable for both young people and adults, the *Topan* offers enhanced comfort and independence. Extremely robust and versatile, this power wheelchair is the ideal choice whatever your lifestyle and wherever you need to go.

➤ **Independence and precision control**

With larger 60Ah batteries, the *Invacare*® **Topan** allows you to be independent and is suitable for both indoor and outdoor use. The Dynamic **SharkII** control system gives an enhanced driving performance thanks to its fingertip precision control which can be programmed to individual needs. The **ACS** control system, available as an option, provides further control choices.

➤ **Comfort at work and leisure**

The **Topan** features a selection of seating options including tilt as standard for optimum posture control. As powered wheelchairs are often used for long periods, it is important that you feel comfortable and at ease at all times, whether in the workplace or during your leisure activities.

➤ **Optimum fit for each individual**

A wide range of seat sizes, including additional adjustments as standard enables each individual to achieve an optimum fit. With its attractive design and styling, the **Topan** seat is both functional and adaptable.

➤ **Spring suspension for indoors and outdoors**

Featuring spring suspension, the **Topan** is comfortable and suitable for both indoor and outdoor use.
