QUANTUM[®] 610

Equipped with our patent pending Mid-Wheel 6[®], the Quantum[®] 610 delivers maximum stability without compromising performance. The independent active OMNI-Castors (nylon, spherical-shaped castors) raise and lower to compensate instantly for changes in the terrain and allow for smooth and stable transitions. The Quantum 610 is the ultimate choice for users who demand maximum stability, tight manoeuvrability and all-around performance.
