The new Breezy Relax – the feel-good chair

At last, a multi-function chair which gives you that all-round feel-good factor. With its wide range of adjustments and options, the new Breezy Relax can be easily adjusted to meet individual requirements and cater for a range of different symptoms.

From infinitely adjustable back angle, seat angle and depth adjustment, through to multi-functional legrests and the very best upholstery for knees, calves and head, and the wide armrests: the Relax maintains

ergonomically correct posture and movement. The result is the highest level of comfort, combined with the very best distribution of pressure and weight.

The Breezy Relax was designed to have the easiest possible handling. It is quite simple, without effort or special tools, to adjust the chair to meet the most varied requirements.

**The Relax from Breezy.
A chair with almost
unlimited possibilities.**
