## The Challenge

Quality of Life through innovative mobility solutions - Under this motto, Sunrise Medical has been producing wheelchair solutions for years.

An extensive productline with a large range of options covers the needs from the majority of wheelchair users.

To cover further customised and specialised needs, our Specials Department offers the ultimate customised wheelchair solutions.

The variety of solutions is not limited to extra ordinary sizes or colours, but cover all requirements the users might have with regards to a wheelchair.

## The Team

Competence, experience and the desire to find a solution for even the most challenging user needs, differentiate our Specials team. The team is fully dedicated to find solutions for your Specials department individual needs. In close cooperation with our dealer network, the optimum mobility solutions are developed and executed. It goes without saying that this work can only be performed by an experienced team with extensive know-how.

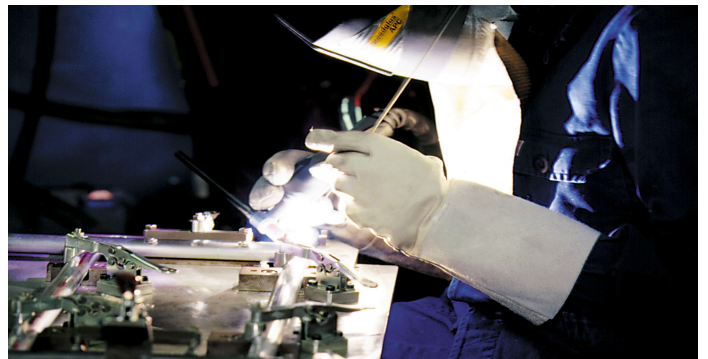

## The Solution

Individual ideas or concepts for product solutions will be verified, tested and documented prior to build, to make sure we meet customers demands. Then the product will be built up to the high Quickie quality standards.

We do not see our Specials team just building wheelchairs, but more over a fulfillment of an advisory role as well.

Only when you are convinced we meet your needs, we are satisfied.
