## Lightweight and Adjustable

### What does your chair weigh?

Now when they ask how much your chair weighs you can give them an answer! When you order your Quickie Ti Titanium the weight calculations are done for you.

◇ Angle adjustable backrest with a machined back plate maintains the form and function of the user. Multiple back angle settings (84°, 86°, 90°, 94° and 96°) allow the user to choose seat angle without compromising their positioning.

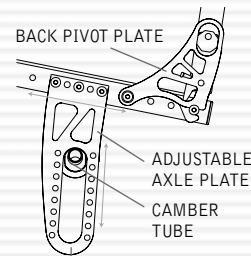

◇ Easy center of gravity adjustment in .5" increments.

◇ Angle adjustment pivots within the caster housing easily accommodate multiple seat heights and wheel and caster changes.

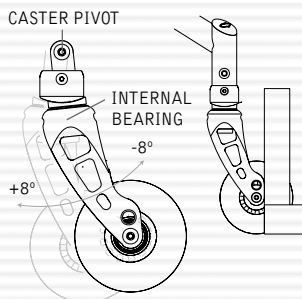

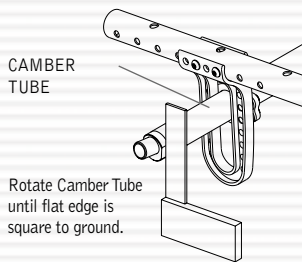

◇ Engineering excellence offers a compact caster fork with bearings that are internal to the fork. This stylish design has been machined to eliminate excess weight while preserving strength.

◇ Splines form a tight fit and provide 16° of adjustment in 2° increments. The caster can be aligned quickly and easily.

◇ Flat edge of the fork enables the user to easily align the front end of the chair and maximize performance.

Rear seat height adjustment in .5" increments.

## SPECIFICATIONS

<b>Seat Width</b>	13" - 18"
