## Reduce to the max – the philosophy for the new Easy<sup>max</sup>.

Don't just go with the flow. Have your own ideas, achieve your goals.  
At work, in your private life, in your leisure time.

4.30 pm. You leave work a bit earlier than usual, to do a bit of shopping and look for a new settee. In the pedestrian area it's almost impossible to get through. At last you get to the sports shop. Here you can get a bit of peace and try on some new clothes – there are some fantastic things there. Great, it was really worth it. It's getting tight for the appointment at the furniture store at 6.00 pm. Got some great advice! At last I've found the right one for my new apartment. Not always easy, when you've got unusual tastes. Done it. Now I can switch off with a beer and then meet my friends at 8.30 pm at the Italian restaurant.

If you are active, decide your own direction and need a chair which you can rely on 100% - choose the new Easy<sup>max</sup>, as the Maximum is absolutely good enough.

Adjustable castor allows  
easy and quick seat  
to ground adjustment

# Easy<sup>max.</sup>

Design. For you it's not just a question of taste, but more of an attitude to life. Choose your wheelchair like you choose your furniture.

An adjustable folding chair design with the seat rails "located" inside the sideframe giving additional rigidity and improved performance

New carbon sideguards offers modern style and lightweight design

The Maximum is absolutely good enough

# Easy<sup>max.</sup>

## Performance

With the Easy<sup>max.</sup> we have succeeded in designing an adjustable, folding wheelchair which, in terms of handling, is a match for any fixed frame wheelchair. The newly-designed cross frame ensures excellent handling and means that the folded dimensions are kept small.

Minimum weight with maximum functionality were key aspects in the development of the Easy<sup>max.</sup>.

## Design

The same goes for the overall look. Integrated castor receivers, lightweight footrest assembly, a new look to the side\* which now includes the frame – the design of the Easy<sup>max.</sup> will impress you through its harmonious lines, retaining individuality with a unified look.

### Specifications

<b>Seat width</b>	from 34 - 46 cm
