

JAY Easy Back

Positioning and comfort made easy

Positioning and comfort made easy

Combining a simple and elegant design with the revolutionary J3 technology, the JAY Easy is a simple and easy to use solution for providing optimal spinal support, positioning and exceptional comfort .

EASY to order: Perfectly balancing the need for a good fit and adequate positioning with simplicity, the JAY Easy has all the options you need, available in:

- **Four** widths (36/ 41/ 46/ 51 cm)
- **Three Heights** (38/ 46/ 53 cm)
- **Two** contour depths (shallow or posterior deep contour)
- **One easy solution**

EASY to Fit: The JAY Easy quickly and easily fits all common tube sizes and is adjustable in depth, height, width and angle. The quick and simple mounting hardware is **easy** to fit and adjust using just a 10mm spanner.

EASY to use: Once fitted it's **easy** to use: Removal is easy thanks to the one handed backrest pull cord mechanism and for cleaning is machine washable at 60° and quick to dry.

Easy to order

The JAY Easy perfectly balances the need for a good fit and adequate positioning with simplicity. Simply select from 4 widths, 3 heights and 2 contour depths. Then add elements from the spine align kit for increased support and comfort. It's that **easy!**

Four widths

- 36cm (14") - to fit a chair with a backrest tube width of 36 - 40cm (14" - 16")
- 41cm (16") - to fit a chair with a backrest tube width of 41 - 45cm (16" - 18")
- 46cm (18") - to fit a chair with a backrest tube width of 46 - 50cm (18" - 20")
- 51cm (20") - to fit a chair with a backrest tube width of 51 - 56cm (20" - 22")

Two contour depths

3 Levels of support Available in three different heights to match the clients function and desired level of support, right from the more active (mid thoracic) through to passive wheelchair users (shoulder height).

Easy to fit and use with JAY Easy hardware

The hardware is easy to operate and adjust for optimal back support.

- **Easy to fit** to all common backrest tubes: 1.9cm, 2.2 – 2.3 cm or 2.5 cm
- **Easy to mount:** Two point fixation to backrest tube
- **Stronger with less play:** Four point attachment to backrest
- **Easy to use with less play:** One handed backrest pull cord release

Easy to Adjust:

- 2" width adjustment
- 3" Depth adjustment
- +12° to -12° height adjustment
- Height adjustable

Easy to customise There are a variety of options available on the JAY Easy that allow you to optimise support and comfort for users.

- Spine Align kit
- Lateral supports
- Headrests
- Chest straps and harnesses
- Lumbar support

Easy Comfort through innovative cover technology

The combination of a soft foam interior with a microclimatic cover means you can be assured that the JAY EASY Back provides superior comfort that's **easy** to care for.

- **Breathable** thanks to the 3DX™ spacer fabric cover, which vents heat and moisture and increases air flow
- **Superb comfort** - through a thick, soft foam layer
- **Machine washable** - at 60°C and quick to dry
