Dual layered fluid sac
Durable high resilient foam

CE

Ordering the correct size

Please note the complete product dimensions.
The example shown is of a 16"x16" cushion part number LC1616.
Please allow an additional 1 ½" to the required seat depth for the rear cushion radius.

The rear cushion radius is a curved extension designed to maximise surface area and minimise the gap between seat and backrest; while stabilising fluid in tilted positions, with coccyx cut out for added relief.
