QUALITY FOR LIFE

Avantgarde XXL 2

The "heavy-weight" champion

For a user weight of up to 180 kg. With its high-strength reinforced aluminum frame, the Avantgarde XXL 2 brings only about 15.2 kg own weight onto the scale (with 50 cm seat width). The reinforced rear wheel adapter makes possible a degree of activity that was unknown to users of this weight class up to now. The new desk side panels with height-adjustable armrests made of Technogel® offer an effective distribution of pressure.
