

# Brooks Lincoln Stairlift Features

Here are just few of the features which set us apart from other stair lift manufacturers and ensure we remain true to our guiding principles of quality and care:

- Slimline design.
  - Runs on maintenance-free rechargeable batteries. Works even in a
- blackout!
- Numerical fault code display, for easy diagnostic and repair guidance.
- Weight capacity 280lbs.
  - No unsightly structural work needed - fits direct to your stair treads - rather
- than the wall.

Simple joystick

Using the lift is as easy as pushing the joystick in the direction of travel.

Wireless Remote Control

The lift can be 'called' or 'sent' up or down the stairs whenever it's needed.

Folding arms, seat and footrest  
The arms, seat and footrest all neatly fold away. With its ultra slimline design there's plenty of room for other users of your staircase.

Lap Harness

All BROOKS stair lifts are fitted with the essential safety feature of a lap harness

Safety cut-out sensors on carriage and footrest

Swivel seat, locks in either 45° or 90° ; position

If anything is blocking the progress of the stair lift, it will come to an immediate halt. There are 5 sensors: 3 on the footrest, and 2 on the carriage.

The seat turns and locks in either a 45° or 90° position, helping you get in and out of your stair lift easily and safely.
