Auatec® ***Beluga* Bath Lift Range**

Independent and safe bathing

The *Aquatec®* **Beluga** has been designed for use within domestic home environments. The **Beluga** provides people who feel insecure in their movements the opportunity to take a bath safely and independently. Whilst keeping maintaining privacy, the personal hygiene can take place in the most relaxing environment. The **Beluga** has an impressive weight limit of 135 kg (21 stone) as standard.

At a push of a button, the ergonomic floating hand control allows the user easily get in and out of the bath. The reclining backrest is provided for a comfortable and relaxing bathing experience using the full capacity of the bath. Due to the self releasing suction cups the *Aquatec®* **Beluga** can be placed in and out of the bath quickly and with no difficulties. The smooth surfaces and detachable machine washable cover mats ensures an easy cleaning process. Cover mats are washable up to 60˚.
