

Loopwheels Colour Options

Loopwheels come as standard with all black springs and metal parts. There are also two ways you can customise your Loopwheels to add a pop of colour to your wheelchair.

Colour Anodising - Loopwheel Urban, Extreme and LT

You can purchase Loopwheels Urban, Extreme and LT with colour anodised hubs and rim hinges. These metal parts stand out against the carbon finish of the springs, creating an eye-catching design. Loopwheels Urban and Extreme can be purchased with Metallic Red, Blue or Purple parts, whilst Loopwheels LT are available in Metallic Green.

Lacquered Springs - Loopwheels Urban and Extreme

New for 2025, Loopwheels Urban and Extreme can now be purchased in one of three lacquered spring shades. These springs are coated with a premium lacquer, giving them a glossy, iridescent finish. Lacquered springs can be purchased with black anodised parts, and upon request are available with colour anodised hubs and rim hinges.
