Rear Wheel extension available

Available wheel position

1 = rear
 2 = centre
 3 = front

Comments (mounting, etc)

The 'Exchange pool' service

The Alber 'Exchange Pool' is a free to use service to help customers who have a technical issue with their Alber products. The Alber products are highly valued and reliable but if something does go wrong with them we recognise the need to help our customers by supplying a temporary replacement product.

The principal of the service is similar to getting your car serviced or repaired and being given a 'courtesy' car for when your car is in the garage. The courtesy car remains the property of the garage at all times and similarly, the ownership of the Alber exchange pool wheels remains the property of Invacare UK. Both the courtesy car and the exchange pool wheels **must be** returned to their respective owners when the repair is completed, and in the case of Alber wheels when the repaired wheels are returned to the end user.

Find out more about the exchange pool service at www.invacare.co.uk/alber

Looking for some Alber training?

Invacademy includes a specific Alber course. If you require a more specifically tailored training course related to the powered wheels or power add-ons we can carry out the training at the dealers premises if required. Find out more at www.invacare.co.uk/invacademy-overview
