

# Hill-Rom NP100 Bidensity

Efficient and safe pressure ulcer prevention

## Features and benefits

- Cube-cut design conforms independently to the body shape and reduces interface pressure and friction
- The independent cubes promote airflow to reduce moisture build-up which in turn reduces maceration and shear
- Low-density heel zone offers gentle support for heels and ankles
- Easy to clean and hygienic
- High density side sections designed for patient safety and improved egress
- Adapts to most bed frames and conforms to all bed positions
- Welded cover with built-in carry handles

# Hill-Rom NP100 Bidensity

## High-resilience, bidensity foam mattress

With features such as independent, bidensity, cube-cut foam, the Hill-Rom NP100 Bidensity mattress reduces interface pressure and friction by individually conforming to the patient's shape. The cube-cut foam promotes airflow under the surface to reduce moisture build up which in turn reduces maceration and shear.

The Hill-Rom NP100 Bidensity mattress is a cost-effective solution to help prevent skin breakdown and pressure ulcers. With its low-density heel zone it also offers gentle support for heels and ankles. It is adaptable to most bed frames and conforms to all bed positions.

The fully enclosed mattress, with its waterproof, yet vapour permeable, multi-stretch, bacteriostatic and fungostatic polyurethane cover, is easy to clean and disinfect enhancing hygiene for patients and caregivers.

## The Hill-Rom NP100 Bidensity offers 1 extended length

Standard size: 198 cm

+5 cm
