HEAD POSITIONING

HEAD SUPPORT

Our portfolio of Whitmyer® Headrests provide posterior, lateral, and occasionally anterior support of the head and neck for individuals who may have difficulty maintaining an upright head posture or are using tilt-in-space wheelchairs. Options include various pad shapes and configurations, six mounting hardware styles, and three cover materials for thousands of possible headrest configurations to meet your client's needs.

Plush

The Plush head support provides excellent posterior support with a high level of comfort and client safety.

Adjust-A-Plush

The Adjust-A-Plush head support is designed for clients who exhibit minimal head control and require lateral support on at least one side to maintain an upright head posture. It features two adjustable hinges that allow the wings to be positioned for greater lateral support.

Contour Cradle

The Contoured Cradle head support is designed to cradle the occipital region and provides superior lateral cervical support.

Heads Up

The Heads Up head support provides posterior, anterior and lateral support for optimal head control. It includes a removable chin prompt anterior support pad as standard.

S.O.F.T. Dual Sub-Occipital Adult & Paediatric

The S.O.F.T. Dual Sub-Occipital head support features a three-pad device for superior sub-occipital and proximal lateral cervical support and ensures maximum support surface contact.

S.O.F.T. Single Sub-Occipital

The S.O.F.T. Single Sub-Occipital head support provides outstanding sub-occipital and proximal lateral cervical support through use of a single curved sub-occipital pad.

Cuddles Infant

Cuddles Infant head supports include a three-pad support system and contoured cradle support designed specifically for very young children.

UPPER BODY

PELVIC

LOWER BODY

UPPER BODY POSITIONING

ANTERIOR TRUNK SUPPORTS

Anterior Trunk Supports encourage an upright posture and support the upper body for improved respiratory function, head positioning and upper extremity control.

Options include six support styles and either structured or dynamic construction.

Classic Style

The Classic style is designed for optimal distribution of support and maximum stability.

	DYNAMIC	STRUCTURED	A [mm]	B [mm]
EI	KATS8107	–	165	250
XS	KATS8100	KATS8300	190	320
S	KATS8101	KATS8301	215	380
M	KATS8102	KATS8302	240	485
L	KATS8103	KATS8303	265	570
XL	KATS8104	KATS8304	290	650

Contour Style

The Contour style design is optimised for women or individuals who want to limit the amount of contact area between the harness and the body.

	DYNAMIC	STRUCTURED	A [mm]	B [mm]
EI	KATS9107	–	165	250
XS	KATS9100	KATS9300	190	320
S	KATS9101	KATS9301	215	380
M	KATS9102	KATS9302	240	470
L	KATS9103	KATS9303	270	570
XL	KATS9104	KATS9304	290	650

Zipper Open

The Zipper Open style is designed to aid in frequent transfers and ease of removal.

	DYNAMIC	A [mm]	B [mm]
S	KATS8701	215	380
M	KATS8702	240	485
L	KATS8703	270	570
XL	KATS8704	290	650

Adjustable Stretch, Centre-Opening

The Centre Opening allows for increased flexibility in frequent transfers and the adjustable centre strap allows for a more precise fit.

	DYNAMIC	STRUCTURED	A [mm]	B [mm]
EI	KATS8807	KATS9407	130	250
XS	KATS8800	KATS9400	145	280
S	KATS8801	KATS9401	165	310
M	KATS8802	KATS9402	250	360
L	KATS8804	KATS9403	250	395
XL	KATS8804	KATS9404	250	440

Y-Style

The Y-Style allows for increased range of motion for one arm while still providing optimal trunk support.

	DYNAMIC	STRUCTURED	A [mm]	B [mm]
EI	KATS9167	KATS9367	380	180
S	KATS9161	KATS9361	485	200
M	KATS9162	KATS9362	560	230
L	KATS9163	KATS9363	635	280

Trunk Strap

The Trunk Strap style allows for increased range of motion when shoulder rotation and reaching are required.

	STANDARD	A [mm]	B [mm]
XS	KATS4050	205	75
S	KATS4000	255	75
M	KATS4100	305	75
L	KATS4200	355	100
XL	KATS4300	405	100

Backpack style

Allows control of forward flexion and allows more intimate shoulder retraction – can be used aggressively for upper torso control.

	DYNAMIC	STRUCTURED	A [mm]
S	KATS9601	KATS9701	305
L	KATS9603	KATS9703	560

HAND AND ARM SUPPORTS

Hand & Arm Supports help maintain a comfortable and optimal position of the hands and arms for improved upper body posture and head control. They also reduce the risk of skin breakdown.
