

Manual Wheelchair

flexx

Robust, Stylish and Adjustable

The Flexx is a highly configurable wheelchair, that looks great and is built to the durable standard you would expect from a Karma wheelchair. There are several adjustments that can be made to configure the wheelchair to provide optimum comfort and performance for the user.

Adjustments include; backrest angle, backrest height, seat depth, seat to ground height and rear wheel position. The modern stylish design is also very user friendly and effortless to use.

Universal Design

The colour coded quick release mechanisms allow the user effortlessly to; remove the footrests, flip back the armrests and adjust the armrest heights.

Ease of use

The key design goal for the Flexx was to make it as easy to use as possible with a unique modern appearance.

Height adjustable armrests

Heights from 20cm to 29.5cm

Flip-back armrests

- Robust side panels
- Integrated locking system

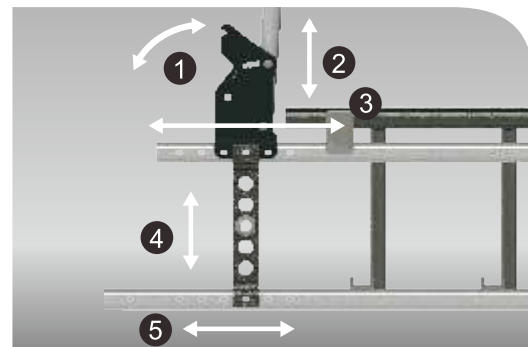

Swing away footrests

The swing in/out footrest hangers are convenient for tight areas and can be easily removed.
