

Extreme X8  
**OFF-ROAD  
AND OFF  
THE MAP**

**TACKLE ANY TERRAIN:**

Thanks to FOUR individual 700W motors, one mounted in-line for each wheel, the X8 gives you unrivalled power when going off-road.

**OVERCOME ANY OBSTACLE:**

Large, 14" drive wheels, each with an optimised psi setting give you maximum traction and control, even at the slowest speeds.

**NEW MPS SEATING SYSTEM:**

Our new retail specification includes our MPS seating system, delivering premium comfort and durability at a more cost-effective price.

Camo Forest

Flames Fury

As a part of our ongoing product improvement initiative, Sunrise Medical reserves the right to change specifications and design without notice. Further, not all features and options offered are compatible with all configurations of the wheelchair. Please consult the user instruction manual for more information.

## KEY FEATURES

### 4-WHEEL DRIVE POWERED CHAIR RIDE COMFORT

The Extreme X8 has an exceptionally smooth, jolt-free ride delivering unparalleled comfort. This is due to the suspension that keeps all four driving wheels on the ground and smooths the impact of small bumps and changes in the elevation of terrain. The low pressure knobbly tyres provide a comfortable ride and gives the wheelchair increased grip and climbing ability. TRULY delivering an all terrain electric wheelchair!

### OUTDOOR WHEELCHAIR WITH OUTDOOR MOTORS

The Extreme X8 has a top speed of 10 km/h (6.2 mph). The motors provide more than just speed, the high torque motors are extremely powerful, allowing you to confidently and quickly ascend a wide variety of difficult terrain. In addition, these motors are also highly efficient, maximising the battery life and real-world distance the Extreme X8 4-wheel drive wheelchair can cover.

### KERB AND STEP CLIMBING

The Extreme X8 4-wheel drive wheelchair eats kerbs and small steps for breakfast. This is due to the four independent motors, all-terrain low pressure knobbly tyres and the articulating front suspension.
