

OFF-ROAD, OFF THE SCALE

THE NEXT GENERATION:

The evolution of the Extreme X8, the XT4 takes off-roading to a whole new level, supported with large knobby tyres, powerful 700W motors and all-day 115Ah batteries.

NEW ALL-TERRAIN SUSPENSION:

Thanks to independent front and rear suspension, all four wheels can maintain contact with the ground to deliver more traction, a smoother ride, greater stability and more control across even the most extreme off-road terrains.

NEW SERVO-STEERING:

The XT4 combines differential wheel speeds with an advanced servo module for precise, reliable control—even on slippery surfaces, in both forward and reverse.

TECHNICAL DATA

Length of base	1000mm / 39"
Width of base	700mm / 27.5"
Floor to top of seat pan height	480mm / 19"
Ground clearance	125mm / 5"
Max. user weight	160kg / 25stone
Top speed	10kph / 6.2mph
Turning Radius	1410mm / 55.5"
Chair weight	220kg
Wheels	Off-road pneumatic 145 / 70-6 black
Batteries	115Ahr (C20)
Controller	R-Net

KEY FEATURES

• UNSTOPPABLE OFF-ROAD TRACTION

Each of the XT4's four knobby off-road tyres are driven by high efficiency, high-torque 700 Watt motors. Power easily through mud, sand, snow or over kerbs and other obstacles. Fitted with two massive 115 Ahr batteries as standard, the XT4 will take you further off-road than ever before.

• GO FURTHER FOR LONGER

Large capacity batteries come standard on the XT4. These provide exceptional range for powerful 4WD, extending your scope for adventurous exploration and boosting your confidence to go the distance.

• SUPERIOR PATENTED SUSPENSION

Front and rear wheels are mounted on their own pivoting arms that adjust independently to follow the contours of the terrain. This helps keep all four wheels on the ground to deliver more traction, a smoother ride, greater stability and more control across even the most extreme off-road terrains.

• SERVO POWERED STEERING FOR PRECISE CONTROL

The XT4 steers using a combination of differential wheel speeds and an industry-leading servo steering module. Even on slippery or low traction surfaces, the chair's intuitive steering delivers a feeling of reliability, responsiveness and control, both in forward and reverse.

COLOUR OPTIONS AND STYLING

Choose from two vibrant colours or sleek Midnight Black. Aerodynamically styled injection moulded body panels are easily detached for maintenance or replacement.

Horizon Blue

Sunset Red

Midnight Black
