

Nursing Care Beds / Bradshaw Accessories

MATTRESSES

See pages 59-89

These accessories are suitable for the Bradshaw and Bradshaw Low Beds (for Bradshaw Bariatric accessories see page 93).

Bradshaw Side Rail Pads (Full Length)

Bradshaw Side Rail Pads (Full Length): 1316/PS/74/CREAM

A pair of full length wrap around side rail pads developed for use with the standard Bradshaw side rails. Strips of Velcro® running along the two bottom edges allow for easy attachment and removal. Available for all Bradshaw Beds.

Bradshaw Side Rail Pads (Full Length)

Bradshaw Mesh Cradle

Bradshaw Mesh Cradle: 1275/EPS

Designed to fill the gap between the mattress platform and the side rails on a Sidhil Bradshaw bed.

It comprises padded sections for the side rails, linked together by mesh sections passing underneath the mattress. The unique make up of the cradle allows the platform to be profiled as normal.

Bradshaw Mesh Cradle

Bradshaw Side Rail Mesh Pads (Pair)

Bradshaw Side Rail Mesh Pads (Pair): 1275/PS

Designed to provide side rail padding whilst still allowing the occupant of the bed to be able to see through the side rails; this reduces the feeling of restricted space. Side rails can still be lowered when the pads are in place.

Although designed for use with the Sidhil Bradshaw range of beds, this product may be suitable for use with other bed and rail combinations, subject to assessment.

Bradshaw End Pads (Pair)

Bradshaw End Pads (Pair): 1275/HF/PAD

To protect the user from possible injury from the wooden headboard and footend.

For easy selection side rail and bed accessory tables, please see pages 49 and 52-53, respectively.
