### Yomper+ Safety Recommendations :

- Carefully read the user manual.
- Adjust speed and responsiveness to the user's abilities and environment.
- Switch off the Yomper+ via the Easy Go unit during transfers or when crossing obstacles.
- Be especially cautious when going downhill.
- The use of an anti-tip device is strongly recommended for user safety.

**I commit to following Acekare's safety and usage guidelines for every use of the Yomper+, and to ensuring proper training on how to use the device. \***
