BRADSHAW BARIATRIC LOW NURSING CARE BED

PRODUCT CODE: 1275/BAR/LOW/COLOUR

KEY FEATURES

Robust and sturdy electrically profiling Bariatric bed for use in the Community, Nursing and Residential Care markets

Quick and easy to assemble, even within limited spaces

Low platform height range of 25.9cm to 62.5cm

Lockable handset controls all electrically operated functions

Four braked castors for added safety

Electrically operated rising backrest and kneebreak functions

Infinitely variable tilt positioning

Attractive domestic appearance with high quality wooden head and foot ends and full length integral wooden side rails. The four section bed can be dismantled and stored on a transport stand

There is no provision for use of an integrated lifting pole; instead, for bariatric clients, we would recommend the use of an appropriate hoist

““ The greatest achievement of the human spirit is to live up to one's opportunities and make the most of one's resources ””

BRADSHAW ACCESSORIES

These accessories are suitable for the Bradshaw Nursing Care Bed Range

PADS

Bradshaw Side Rail Pads (Full Length) 1316/PS/74/CREAM

A pair of full length wrap around side rail pads developed for use with the standard Bradshaw side rails. Strips of Velcro® running along the two bottom edges allow for easy attachment and removal.

Bradshaw Mesh Cradle 1275/EPS

Designed to fill the gap between the mattress platform and the side rails on a Sidhil Bradshaw bed.

It comprises padded sections for the side rails, linked together by mesh sections passing underneath the mattress.

The unique make up of the cradle allows the platform to be profiled as normal.

NOT SUITABLE FOR BARIATRIC

Side Rail Pads High (pair) 1316/PS/75/HIGH/CREAM

NOT SUITABLE FOR BARIATRIC

Bradshaw End Pads (pair) 1275/HF/PAD

To protect the user from possible injury from the wooden headboard and footend

NOT SUITABLE FOR BARIATRIC

Bradshaw Side Rail Mesh Pads 1275/PS

Designed to provide side rail padding whilst still allowing the occupant of the bed to be able to see through the side rails; this reduces the feeling of restricted space. side rails can still be lowered when the pads are in place.

EXTENSIONS

Bradshaw Bed Extension Kit 1275/EX

The Bradshaw Bed Extension Kit offers the taller occupant a safer and a more comfortable experience without the loss of the bed's original features.

The kit includes longer side rails

NOT SUITABLE FOR BARIATRIC

Bradshaw Side Rail Height Extension (pair) 1275/5 (Pair)

Designed to add additional height to the beds integral side rails without limiting any of its original features

NOT SUITABLE FOR BARIATRIC

LIFTING

Bradshaw Range Lifting Pole 1275/LP

Includes a shaped pole, nylon strap and ergonomically designed moulded plastic handle

NOT SUITABLE FOR BARIATRIC

Elland Bradshaw Grab Handle 1214/GRAB

Designed specifically to attach to the framework of a Bradshaw bed fitted with wooden side rails. Once fitted, this unique grab handle fits within the bed so that it does not clash with the side rails and can be used when the side rail is up or down.

The Elland Grab Handle will assist in the elevation of a client to a seated position and will also aid the transfer of a user to a wheelchair, commode or to a standing position.

NOT SUITABLE FOR BARIATRIC

With side rail down

With side rail up

Our Service & Maintenance Promise

Service and maintenance is a vital element of our business; 24/7 product and equipment availability plays an essential role in helping our customers to run efficient operations and make the most of their budgets.

We listen to your requirements and design individual strategies and solutions to give you total peace of mind. From planned maintenance services to minimise problems through to rapid response in case of failure, usually within six to eight hours, we provide an expert and professional service.

Service Centres Nationwide

With service centres strategically located nationwide, we guarantee an optimum response, supported by our team of field service engineers. Their experience and depth of product knowledge ensures equipment is put back into service promptly, efficiently and cost effectively.

We carry comprehensive stocks of spare parts both for the Sidhil range and for other manufacturers' products at our service centres. We also provide decontamination services to protocols as advised by a clinical scientist in infection control, staffed by trained personnel operating in accordance with MHRA DB2006 (05).

Our service centre processes are embedded within Sidhil's established quality standards to ISO 9001 levels. For more information on our service and maintenance capabilities, contact the team on 01422 233 136.

Equipment Financing

Making the Most of your Budget

At Sidhil, our Commercial Team focuses on enabling you to procure the right equipment whilst focusing on patient care, with a range of solutions to help you manage the bottom line.

We offer a range of finance options ranging from rental and rent to buy through to a variety of leasing options based on terms from three years. All of our solutions can be individually tailored to meet your specific needs.

Specialised Spares Supply

In support of our service and maintenance facilities, we operate a spares department trained to help our customers' engineering and maintenance teams to locate the correct spare parts quickly and efficiently.

For spares requirements, contact our team on 01422 233 138.

Key Rental Benefits

- Rental is treated as a revenue item, not a balance sheet item
- Upgrading is easy as new products become available
- Detailed reporting allows you to manage your budgets accurately
- Rental yields maximum flexibility

Key Leasing Benefits

- Leasing is treated as a revenue item, not a balance sheet item
- Disposal of products at end of life can be handled by other parties if needed
- Monthly costs are typically lower than for rental
- Payments can be variably structured to suit budget constraints
