

Comfort, Performance & Style

ELITE²

Comfort, Performance and Style

The Sterling Elite² series brings a new standard in scooter design and performance.

The strong history of the Sterling Elite XS scooters have over the years proven to be safe and reliable companions. The new Sterling Elite² series now brings market leading, innovation and improvements in comfort, safety and reliability.

The Sterling Elite² series features bright LED lighting, a secondary parking brake for safety, and the new Sterling Elite² Plus central steering drive control, all for improved safety and performance.

As an option, we have developed new soft ride solid tyres, that do not compromise comfort, but stop the inconvenience and cost of punctures.

The clear and easy to operate control panel is fitted with a reliable battery indicator, speedometer, odometer and hour meter.

A wide range of options, accessories and special adaptations makes it possible to adapt the Sterling Elite² series to your personal wishes.

Crash Tested

The Elite² series is successfully crash tested in accordance with ISO 7176-19 with a 4-point restraint system.

ELITE² Plus

Comfort, pleasure and safety
on the road.

The Sterling Elite² Plus is the flagship of the Sterling Elite² series. A full front and rear suspension scooter, the Sterling Elite² Plus also offers 14" wheels giving a comfortable ride in everyday terrain.

The clear and easy to use large LCD display with soft-touch buttons gives control over the indoor/outdoor driving profiles, LED lights, turn signals and also stores trip/total distance travelled.

The central steering drive controls are angle adjustable and height adjustable using a simple adjustment in the steering column. Together with the height adjustable, 360° swivel seat, seat slider and adjustable armrests, a comfortable riding position for all users can be found. Optional controls include a footcontrol and twist grip 'motorbike' style bar.

Front and rear hydraulic suspension

ELITE² XS

Speed and comfort three wheel scooter.

The Sterling Elite² XS is the successor to the outstanding Elite XS. Reliability and safety are in the genes of the new Sterling Elite² XS.

With the intuitive ergonomic wig-wag control, the Sterling Elite² XS is the new standard of scooter drive controls. Information of your journey - trip distance, total distance and speed reading is easily displayed on the backlit LCD control unit.

The Elite² XS is designed for comfort with the unique adjustable rear suspension. This combined with an adjustable seat, gas strut adjustable tiller and delta handle bar, means a comfortable riding position can be always be found.

ELITE² Plus
