WHITMYER[®] HEADS UP[™]

The complete solution for
superior head and neck support

WHITMYER® HEADS UP™

The Whitmyer Heads Up is an innovative head support, designed to maximise clients' interaction with their environment by providing anterior, posterior and lateral support of the head and neck. It features swing-out, adjustable arms to easily accommodate client transfers and varying client presentations.

Available with Two Industry-Proven Head Support Options

- Contoured Cradle - Precise postero-lateral support for excellent head positioning
- Sub-Occipital (Shown right) - Has additional occipital pad for extra support to encourage cervical flexion

Innovative Anterior Support Arms

- Provide anterior surface for chin support pad to promote upright head position
- Swing-out function allows for easy transfer
- Lower lateral adjustments accommodate varying body shapes

Supplied Complete with Whitmyer Mounting Hardware

- Axys - Strong, reliable and successfully transit tested with the contoured cradle version
- Pro Stem - Our strongest hardware for the most challenging cases
