X850 Corpus[®]

permobil

Experience life off the beaten track

Discover the latest version of the X850 Corpus® with its sleek and modern design. Our powerful off-road wheelchair is ready to tackle a variety of terrains from snow covered trails to forest and hills with a top speed of 15 km/h.

Seat rotation

The 146° seat rotation simplifies access and transfers making it easier to move to and from the chair without assistance.

Power recline and tilt

Smooth and safe power tilt and power recline with seamless sheer reduction for any user up to 136 kg.

Great stability

The wheelbase extends up to 200 mm, giving you even greater stability at high speed.

Drive in an elevated position

Up to 200 mm seat elevation brings you to eye level with the world around you when on the go. The max speed when elevated is 7 km/h to ensure safe and efficient travel.

Drivability

Experience great comfort and control as you move effortlessly through any terrain. With rear-wheel drive, powerful motors and robust suspension this is a wheelchair which you can safely drive at 15 km/h.

Corpus® seating – follows the contours of the body

The Corpus seating system features an ergonomic design that follows the contours of the body. Improved comfort, pelvic positioning, lateral stability and immersion are all key objectives of the Corpus cushions.

**Stay in stride with your companion
at 15 km/h top speed**

**With a smaller footprint, the X850 is
easier to bring on public transport**

A person wearing a teal winter jacket, light blue snow pants, a black beanie, and glasses is riding a black Permobil X850 Corpus off-road wheelchair. The wheelchair has large, treaded tires and is positioned on a snowy surface. In the background, there is a white building with a pointed roof and some trees. A blue circular graphic is in the top right corner.
