AGILITY®
BACK SYSTEMS

ROHO

**EXTRAORDINARY.
JUST LIKE YOU.**

DURABLE, VERSATILE WHEELCHAIR BACK SYSTEMS FEATURING ROHO® AIR FLOATATION™ TECHNOLOGY.

AGILITY Back Systems from ROHO

After successfully supporting the wheelchair seating and positioning market for over 45 years, ROHO knew there were more opportunities to meet the needs of clinicians and end users. Our solution: an innovative positioning back system.

BENEFITS

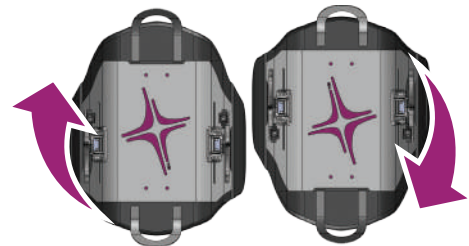

The ROHO AGILITY back is designed to accommodate various body sizes and shapes. It can be easily adjusted, and is adaptable to virtually any wheelchair. AGILITY backs are extremely lightweight and durable, and designed to stay in place.

ROHO AIR FLOATATION Technology

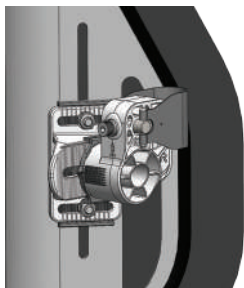

ROHO AGILITY backs are designed to be lightweight and to conform to the user's body. AGILITY backs integrate ROHO's AIR FLOATATION Technology, which is fully adjustable to tailor the air volume to the individual's comfort level and postural changes.

"Flip-a-bility"

- Adjustable to fit more body shapes.
- Can be "flipped" to accommodate wider torsos or broader shoulders.

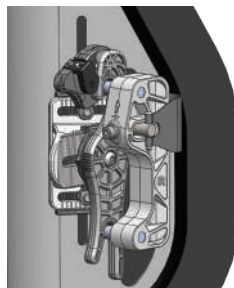

AGILITY HARDWARE

Fixed Hardware

Fixed hardware is ideal for those who rarely need to remove their back.

Quick Release Hardware

Quick release hardware makes removal for transport or storage a snap, even for those with limited hand dexterity. Simply unlock and lift by the handle.

AGILITY CARBON Hardware

With just a single clamp on either side, AGILITY CARBON's integrated hardware maintains a clean appearance while remaining smaller, lighter and stronger than typical fixed back hardware.

Both fixed and quick release hardware are made from Zytel®, a product of DuPont™, which provides an excellent strength-to-weight ratio.

PRODUCTS

**ROHO AGILITY CARBON™ BACK SYSTEM**

With compression molded, lightweight carbon fiber construction, AGILITY CARBON combines high-strength performance with a streamlined design. Our flat-weave, 12K carbon fiber composition represents the latest advancements in performance material. The result is a precision-crafted seating system that looks as good as it feels.

Depths available:
Minimum Contour: 3" (7.5 cm)
Mid Contour: 4" (10 cm)

Widths available: 14" (35.5 cm), 15" (38 cm), 16" (40.5 cm), 17" (43 cm), and 18" (45.5 cm)
Heights available: 10" (25.5 cm), 13" (33 cm), and 16" (40.5 cm)

Available for order January 2017

**ROHO AGILITY MIN CONTOUR BACK SYSTEM**

The AGILITY Min Contour back system provides basic postural support for independent wheelchair users who have good trunk control and need adjustability to enhance range of motion and mobility.

Depth of overall back system:
With Air Insert: 3" (7.5 cm)

Available Models:
Foam with Air Insert + Lumbar Support

Widths available: 14" (35.5 cm), 15" (38 cm), 16" (40.5 cm), 17" (43 cm), 18" (45.5 cm), 19" (48.5 cm) and 20" (51 cm)

Heights available: 10" (25.5 cm), 13" (33 cm), 16" (40.5 cm), and 18" (45.5 cm)

**ROHO AGILITY MID CONTOUR BACK SYSTEM**

The AGILITY Mid Contour back system is recommended for individuals who require postural support, are somewhat dependent with transfers and need minimal trunk support.

Depth of overall back system:
With Air Insert: 4" (10 cm)

Available Models:
Foam with Air Insert + Lumbar Support

Widths available: 14" (35.5 cm), 15" (38 cm), 16" (40.5 cm), 17" (43 cm), 18" (45.5 cm), 19" (48.5 cm) and 20" (51 cm)

Heights available: 10" (25.5 cm), 13" (33 cm), 16" (40.5 cm), 18" (45.5 cm) and 20" (51 cm)

**ROHO AGILITY MAX CONTOUR BACK SYSTEM**

The AGILITY Max Contour back system provides a significant amount of postural support. The Max Contour is recommended for individuals who have, or have potential for, shoulder or back pain and want increased comfort as well as trunk support and control.

Depth of overall back system:
With Air Insert: 7" (18 cm)

Foam with Air Insert + Lumbar Support

Widths available: 14" (35.5 cm), 15" (38 cm), 16" (40.5 cm), 17" (43 cm), 18" (45.5 cm), 19" (48.5 cm) and 20" (51 cm)

Heights available: 16" (40.5 cm), 18" (45.5 cm) and 20" (51 cm)

**ROHO AGILITY CUSTOM BACK SYSTEM**

Design an adjustable DRY FLOATATION® insert that's individually tailored to the user's unique body shape and postural support needs with ROHO's exclusive AGILITY Custom back system.

Custom backs are available in consistent or variable DRY FLOATATION Technology air cells for superior comfort and support. Multiple or single air valve placements can also be specified for air flow control.

AGILITY Custom backs can be fitted to all AGILITY back shell sizes.

ROHO AGILITY LATERALS

AGILITY Laterals are designed to provide additional trunk support and positioning to the individual. Laterals are available in swing-away and fixed brackets with flush or offset mounts. Individuals may order in single quantities to allow combination of one fixed and one swing-away, which allows for easier transfers.

Swing-away laterals:

Allow individuals to transfer more easily.
Available in flush, 1/2" (1.5 cm), 1" (2.5 cm) and 2" (5 cm) offset.
Brackets come with a curved base, foam pad and cover.

Fixed laterals:

Available in flush and 1/2" (1.5 cm) offset.
Brackets come with a flat base, foam pad and cover.

The AGILITY Laterals are designed for use only with ROHO AGILITY Minimum Contour Back Systems and ROHO AGILITY Mid Contour Back Systems.

Fixed Lateral

Swing-away Lateral

AGILITY HEADREST AND ADAPTOR PLATE

AGILITY HEADREST

This versatile headrest is completely adjustable in any direction. It adjusts horizontally, vertically, and pivots on a ball. Positioning stop collar allows you to remove the headrest assembly without changing the desired headrest position.

AGILITY HEADREST ADAPTOR PLATE

The ROHO AGILITY Headrest Adapter Plate is hardware intended to be used with ROHO AGILITY Back Systems to attach commercially-available wheelchair headrests. The AGILITY Headrest Adapter Plate is designed to be compatible with OEM headrests.

WHY ROHO?

Expertise

ROHO has been manufacturing cushions for over 45 years. There are currently over one million cushions in use, in over 65 countries worldwide.

Leadership

We continue to actively collaborate with industry experts and associations, and receive council from ROHO's elite Scientific Advisory Board consisting of world leaders in pressure injury research.

Passion

We provide unparalleled customer service and product warranty guarantees to ensure that our customers receive the best products and services possible.
