AGILITY Laterals

Designed to provide additional trunk support and positioning for individuals. Fits all sizes of AGILITY™ Minimum Contour and AGILITY™ Mid Contour Back Systems.

Available in swing-away and fixed brackets with flush or offset mounts.

- Swing-away brackets come with curved base with foam pad and cover.
- Fixed brackets come with flat base with foam pad and cover.

Order in singles to allow combination of one fixed and one swing-away, which allows individuals to use the swing-away lateral on their transfer side for easier transfers.
