

ICON 60

THE ACTIVE WHEELCHAIR

REHASENSE

DESIGNED WITH HIGH ADJUSTABILITY

The ICON 60 is a robust and highly adjustable active wheelchair, making it an excellent choice for both first-time and experienced users. Its wide range of configuration options allows the wheelchair to be adapted as the user's needs, skills and preferences change. Seat depth, seat height, seat angle and centre of gravity can all be adjusted to achieve the right balance between comfort, stability and manoeuvrability. The highly

adaptable backrest provides excellent seating support and can accommodate different body shapes and sizes, including taller or shorter users and broader or narrower backs. The strong aluminium frame makes the ICON 60 perfectly suited for everyday use and compatible with power add-ons such as PAWS, Eco Travel and Eco Assist. Different frame configurations are available, allowing each wheelchair to be tailored to the user's individual needs and preferred riding style.

CENTRE OF GRAVITY

Highly adjustable seat position (balance)

FOOTREST

also available in reinforced version for Track Wheel

SIDE PANEL

in carbon or aluminium, with or without fenders and optional padded armrests

BACKREST OPTIONS

Excellent seating comfort with a highly adjustable backrest that can be adapted to different body sizes and shapes, including tall or short users as well as broader or narrower backs.

ICON 60 is the ideal wheelchair for use with PAWS
