The Java Plinth

The Java Plinth has been developed to be used as a support over the Geberit range of wash/dry toilets for users who may otherwise struggle with the stability of standard toilets. The specially designed stainless steel frame gives the plinth the ability to withstand much heavier weights making it highly robust and the perfect alternative to our standard shower chair range.

The standard Java Plinth comes with the following features:

- Full stainless steel frame in a choice of 2 widths – 23” & 33” and a 15 year frame warranty
- Choice of toilet or horseshoe seat
- Skirt included for Geberit compatibility
- Safe working load of 540kg
- Slight incline on the seat to aid with standing & comfort
- Also compatible with other wash/dry toilets
- Can be used as a static shower seat
- Choice of 2 leg styles, bolt down or rubber ferrules
- Choice of 2 leg lengths
- 2 years parts warranty

Snugfit[®]
SLINGS

Deluxe Sling

Ref: DS

The Deluxe Sling is our most popular style of sling, providing excellent levels of comfort and support whilst being easy to take on and off.

Designed with slide sheet material in the leg and back sections the Deluxe Sling can be fitted quickly to avoid any user discomfort.

- Available in 9 sizes
- All paediatric sizes come with a chest band as standard
- Colour coded binding to differentiate between sizes
- 200kg - 350kg safe working load
- Available in both loop and clip versions to suit most hoists

The Deluxe Sling comes in polyester as standard but is also available in:

- Spacer Fabric
- Superlite
- Lite
- Mesh

All Snugfit Slings come with 2 year warranty and lifetime traceability.

Also available with the Plus strap option. Plus straps give more room around the inner thighs, groin and stomach and can increase comfort levels where more room is required.

Deluxe Comfort

Ref: DCS

The Deluxe Comfort Sling offers additional levels of comfort and support over and above that of the Deluxe Sling. The sling is designed for those clients who, due to their posterior and thigh aspects, might otherwise struggle to fit a standard sling. Designed with slide sheet material in the leg sections the Deluxe Comfort Sling can be fitted quickly to avoid any user discomfort.

- Available in 9 sizes
- Colour coded binding to differentiate size ranges
- Loop and clip fixings available
- 200kg - 350kg safe working load

The Deluxe Comfort Sling comes in polyester as standard but is also available in:

- Spacer Fabric
- Superlite
- Lite
- Mesh

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Also available with the Plus strap option. Plus straps give more room around the inner thighs, groin and stomach and can increase comfort levels where more room is required.

Inseat

Ref: IS

The Inseat Sling is the perfect choice when the sling needs to be left in place for long periods of time and provides air flow and permeability to help reduce sweating. It has been designed to be as discreet as possible and comes with pockets to tuck away any loose straps.

- Available in 9 sizes
- Chest bands available on request
- Safety pommel as standard
- Available in split leg design
- Loop or clip fixings available
- 6 strap version available
- Colour options available
- 200kg - 350kg safe working load
- Pressure mapping evidence available on request

The Inseat Sling comes in padded towelling as standard but is also available in:

- Spacer Fabric
- Superlite
- Lite

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Inseat Comfort Recline

Ref: ISCR

The new adaptation to the classic Inseat design is tailored to offer extra support when the user is being lifted and the highest possible comfort when left in-situ.

- Available in 9 sizes
- Chest band available on request
- Safety pommel as standard
- Loop or clip fixings available
- Colour options available

The Inseat Comfort Recline comes in Spacer fabric as standard. All Snugfit slings come with a 2 year warranty and lifetime traceability.

Inseat Split Leg

Ref: ISSPLIT

The Inseat Split Leg is an alternative take on the standard Inseat for users who find the hammock shape unsuitable. The split leg design holds the users legs separately for extra comfort and ease of transfer.

- Available in 9 sizes
- Chest band available on request
- Loop or clip fixings available
- Colour options available

The Inseat Sling comes in padded towelling as standard but is also available in:

- Spacer Fabric
- Superlite
- Lite

All Snugfit slings come with a 2 year warranty and lifetime traceability.

Toileting & Transfer Sling

Ref: TTS

The Toileting and Transfer Sling is designed to offer quick and easy access for the adjustment of clothing and quick fitting for toilet transfers. Fitted with the arms inside, the sling cannot ride up under the arms which means it is suitable for a wider range of clients.

- Available in 7 sizes
- Available in 2 styles - one piece or two piece
- Optional detachable legs feature for ease of washing
- Chest band as standard
- Colour coded leg loops
- Available as a fixed leg version
- 200kg - 350kg safe working load

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Hygeenie Sling

Ref: HYG

The Hygeenie Sling was designed as an alternative to the standard Toileting sling. It was developed in house by our team of specialists to support the person in the sling without pulling under the arms and offers plenty of access for personal care.

- Available In 9 sizes
- Colour coded binding to differentiate size ranges
- Colour coded leg loops
- Loop and clip fixings available
- Wipe clean and water resistant material
- Colour options available
- 200kg - 350kg safe working load

The Hygeenie Sling is only available in the standard water resistant polyester.

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Hygeenie High Back

Ref: HYGHB

The Hygeenie High Back was designed to offer extra support and comfort by adapting the original Hygeenie style.

- Available In 9 sizes
- Colour coded binding to differentiate size ranges
- Colour coded leg loops
- Loop and clip fixings available
- Wipe clean and water resistant material
- Colour options available
- 200kg - 350kg safe working load

The Hygeenie Sling is only available in the standard water resistant polyester.

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Bathing

Ref: BS

The Bathing sling is based on the Deluxe sling, its split leg design with large aperture allows for easy access when washing. The thin unpadded bathing material dries much quicker than a standard padded sling.

- Available in 9 sizes
- Colour coded binding to differentiate size ranges
- Loop and clip fixings available
- 200kg - 350kg safe working load

The Bathing Sling is available in polyester as standard but is also available in:

- Mesh

All Snugfit Slings come with a 2 year warranty and lifetime traceability. Also available with the Plus strap option. Plus straps give more room around the inner thighs, groin and stomach and can increase comfort levels where more room is required.

Flexi

Ref: FS

The Flexi Sling is designed for use with clients who are prone to extensor spasm or any kind of involuntary movement. The loop strap system allows the sling to move, finding its own centre of gravity stopping it from sliding up between the legs and helping the sling retain its shape. The Flexi Sling has slide sheet technology in the back and legs for easier fitting and positioning.

- Colour coded binding to indicate size ranges
- Available in 9 sizes
- Paediatric sizes come with a chest band as standard
- Colour coded leg loops
- 200kg - 350kg safe working load
- Lifetime traceability

The Flexi Sling comes in polyester as standard but is also available in:

- Spacer Fabric
- Superlite
- Lite
- Mesh

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Also available with the Plus strap option. Plus straps give more room around the inner thighs, groin and stomach and can increase comfort levels where more room is required.

Cressy

Ref: CS

The Cressy Sling is based on the Deluxe style and comes complete with an integral neck support. The padded legs with slide sheet material make the Cressy Sling easy to fit and comfortable to use. The counterpoise straps are easy to use and are designed to be of particular benefit to clients who are prone to spasm while in the sling.

- Available in 9 sizes
- Colour coded binding to differentiate size ranges
- Paediatric sizes come with a chest band as standard
- Colour coded leg loops
- Removable padded neck roll
- 200kg - 350kg safe working load

The Cressy comes in polyester as standard but is also available in:

- Spacer Fabric
- Superlite
- Lite
- Mesh

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Also available with the Plus strap option. Plus straps give more room around the inner thighs, groin and stomach and can increase comfort levels where more room is required.

Valet

Ref: VS

The Valet Sling has been designed for maximum comfort, ease of use and toileting efficiency. The unique design of the Valet Sling allows carers to adjust clothing easily while the client remains in the sling, reducing the need for multiple transfers.

- Available in 9 sizes
- Colour coded binding to differentiate size ranges
- Colour coded leg loops
- Loop and clip fixings available
- Can be incorporated into various different sling styles
- 200kg - 350kg safe working load

The Valet Sling comes in polyester as standard but is available in:

- Spacer Fabric
- Superlite
- Lite
- Mesh

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Also available with the Plus strap option. Plus straps give more room around the inner thighs, groin and stomach and can increase comfort levels where more room is required.

Universal

Ref: US

The Universal Sling is a popular design chosen for small adults and children to aid quick and easy transfers. Its full body split leg design offers high levels of support and ease of toileting.

- Available in 9 sizes
- Colour coded binding to differentiate size ranges
- Colour coded leg loops to ensure accurate fitting records can be kept in a care plan.
- 200kg - 350kg safe working load

The Universal comes in polyester as standard but is also available in:

- Spacer Fabric
- Superlite
- Lite
- Mesh

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

ER - The Emergency Recovery Sling

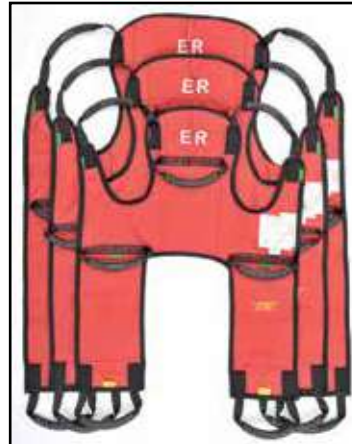

Ref: ER

The ER sling was developed initially with the emergency services in mind. Designed for moving users with low/ no muscle tone from the floor to a wheelchair/trolley in an emergency situation. This replaces the more conventional drag lift which can cause harm to both lifter and patient.

This manual lifting sling can be used by 2 – 6 people to achieve a safe comfortable lift.

- Available in 3 sizes
- Robust rubber lifting handles
- Non slip backing to prevent sagging
- Colour coded tags to indicate matching lifting straps
- Designed in red Hygeenie fabric for ease of identification and cleaning
- 200kg – 350kg safe working load

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Person into Bed

Ref: PINTOB

The Person into Bed System was developed to enable the carer to assist a person with reduced mobility and weaker upper body strength into bed.

This system enables the person to be supported in a semi-reclined sitting position throughout the manoeuvre. With the person fully supported in this way it is much easier to lift the person's legs up. As the legs are lifted up onto the bed the person is slid around into position on the bed. When the transfer is completed the slide sheets and excess pillows are easily removed as the person is settled into a comfortable sleeping position.

- Developed with the 'Single Carer' agenda in mind
- Can be used with ordinary beds single or double
- Is comfortable for the person being assisted, reducing the risk of harmful handling
- Reduces the risk of carer injury

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Floor to Seat System

Ref: FTSS

The Floor to Seat System was designed to address a problem identified through investigation into incidents of unsafe handling by Gwynedd Council. It was discovered that staff were unsure of what sling to use to lift the fallen person and had an understandable worry of causing harm to the already distressed and anxious person by selecting the wrong style and size of sling.

- Sling is padded and softly lined to provide comfort and protection
- High grade slide sheet outer lining to withstand wear and tear but facilitate easy sliding
- Adjustable straps to enable optimum positioning
- Provides a safe system of work which protects the person as well as the staff

All Snugfit Slings come with a 2 year warranty and lifetime traceability.

Sling & Hoist Compatibility Statement

The Osprey Sling Company makes slings for many hoist manufacturers, both in the UK and for leading European companies. Interchanging slings has been an issue for many professionals over the years and this is an understandable concern with the vast variety of both hoists and slings available.

There may be reluctance by certain hoist manufacturers to accept the compatibility of other slings with their hoists, however, British and European standards BSEN10535, suggests that compatibility between hoists and slings is the responsibility of the sling manufacturer.

Quality Standards

The Osprey Sling Company works within the requirements of the Medical Devices Directive. The requirements are that The Osprey Sling Company can produce documented evidence in line with Medical Device Directive 93/42EEC, to prove that they have tested all configurations of their slings in durability and fatigue on all potential hoists being used.

All of our slings have been tested beyond the requirements set out in BS EN ISO 10535:1998, by a leading name in the industry and carry the CE Mark.

Public & Products Liability

Our Insurers provide us with Public and Products liability cover to the sum of two million pounds in respect of injury or damage in the use of slings supplied by our company.

Full insurance certificates are available on request.

Hoists

Slings supplied by the Osprey Sling Company have been tested and meet the requirements on the following hoists with a standard loop fitting coat hanger or 'T' Spreader bar arrangement:

Ardo	Ergolet	Invacare With Pivot Frame	Molift	Promed Elf	Wessex
Arjo	Guldmann	Lifetech	Oxford	Promed Delta	
Chiltern	H.N.E	Liko	Porta	Romedic	
Days	Invacare	Medi-Tec	Prism Medical	Westholme/ Freeway	

Should the hoist you are working with not appear on the list, please contact us and we will be happy to carry out an assessment of compatibility.

Tailored Slings

Osprey Sling Company has an experienced team of professionals designing our product range. If our standard range doesn't suit your client or their situation then we are happy to produce bespoke tailored slings to suit your needs.

Electric Trolley

Ref: 155030

The Timo Electric Shower Trolley enables easy care and bathing of patients thanks to its dynamic design and functionality. The electronic adjustment allows for a smooth transition for patients and less strenuous activity for carers. Using independently operated pillars the trolley is able to achieve trendelenburg and anti-trendelenburg positions.

The standard trolley is available in 3 adult sizes and includes:

- Coated drop down safety rails
- Extendable flexi drain pipe
- Vinyl mattress and pillow
- Castors with a central brake locking system
- Battery and charger
- Available with blue coloured top
- 12 month warranty
- 200kg safe working load
- Padded rail covers also available as an optional extra

Hydraulic Trolley

Ref: 155000

The Timo Hydraulic Shower Trolley combines modern technology and design to enable easy bathing for both patients and carers. Adjustable in height by means of an easy to use foot pedal and hydraulic cylinder the optimum height for both the patient and carer can easily be achieved.

A function unique to the hydraulic shower trolley is its side folding top which helps with cleaning and maintenance.

The standard trolley is available in 3 adult sizes and includes:

- Coated drop down safety rails
- Extendable flexi drain pipe
- Vinyl mattress and pillow
- Castors with a central brake locking system
- Available with blue coloured top
- 12 month warranty
- 200kg safe working load
- Padded rail covers are available as an optional extra

Paediatric Electric Trolley

Ref: 155030C

The Timo High Low Paediatric Shower Trolley now has the smallest length and width in the Timo UK range, making it ideal for use with children or in areas of limited space.

It's padded vinyl liner makes for a safe and comfortable environment and the range of standard features allow carers to carry out changing and personal care with ease.

Standard features include:

- Coated safety rails
- Central locking brake system
- Extended flexi hose
- Soft vinyl liner in blue
- Pillow
- Adjustable head rest
- 12 month warranty

Hydraulic Trolley – Adjustable Backrest

Ref: 155010

The Timo Hydraulic Shower Trolley with backrest adjustment as standard, combines modern technology and design to enable easy bathing for both patients and carers. Adjustable in height by means of an easy to use foot pedal and hydraulic cylinder and 30 degrees hydraulic backrest adjustment.

The standard trolley is available in 3 adult sizes and includes:

- Colour coated side rails as standard
- 30 degrees adjustable backrest as standard
- Vinyl mattress and pillow
- Central locking brake system with directional brake steer as standard
- Available with blue coloured top
- 12 month warranty
- 200kg safe working load

The Hydraulic Plinth

Ref: 114510

The Timo Hydraulic Changing Plinth is designed for ease of use, comfort and patient safety. The wipe clean padded top comes with an adjustable backrest that can easily be altered to suit the client's needs. The Plinth can be adjusted in height by means of a foot pump.

The Changing Plinth is durable enough for multi-use situations whilst retaining its attractive appearance that would not be out of place in any residential bathroom, care facility or hospital.

The standard Plinth is available in 3 sizes and includes:

- Coated drop down safety rails
- Soft padded top section with adjustable backrest
- Braked castors with central brake locking system
- Paper roll holder
- Wide range of colours
- 150kg safe working load
- 12 month warranty

Wall Mounted Stretcher

Ref: 155040

The Timo Wall Mounted Shower Stretcher is designed to help carers bathe and shower patients as easily as possible. The platform can be raised and lowered simply by using the hand control to reach the perfect height for all transfers. The platform also folds neatly against the wall, saving space even in the smallest bathroom.

The standard wall mounted plinth comes with:

- Coated drop down safety rail
- Padded rail cover available as optional extra
- Wipe clean mattress and pillow with adjustable backrest
- Available with blue coloured top
- Battery and charging station
- No need for expensive fused spur
- 200kg safe working load
- 12 month warranty
