(Version 5: June 2018)

# Introduction

Introducing the new Jazzy Air® a new era in power mobility. The advanced stability and performance of the chassis allows the Jazzy Air to be safely elevated to 10", whilst driving at 3.5 mph.

#socialmobility

The Jazzy Air® features Active-Trac® suspension, which provides unique stability in both the raised and lowered position. With a tight turning radius of 57.15 cm (22.5"), unique Mid-Wheel 6° Drive Design and the addition of bright LED markers combines to make the Air a smoother more enjoyable journey.
