Please follow this measuring method:

The following method is recommended on the basis of extensive practical experience. Deviations are possible in individual instances.

Seat width (SW):

- a) *For the user:* Allow space between sideguard and hip on each side of the chair (approx. 1 - 2cm altogether)
- b) *On the wheelchair:* From outside frame tube to outside frame tube.

Seat depth (SD):

- a) *For the user:* When sitting upright: leave space for 2 - 3 fingers between front edge of the seat upholstery and back of knee (approx. 3 - 6 cm). Care must be taken with adj. upholstery.
- b) *On the wheelchair:* From back tube to front of seat upholstery.

Front seat height:

- a) *For the user:* When sitting with 90° knee angle: From back of knee to bottom of shoe sole.
- b) *On the wheelchair:* From front of seat tube to the ground . (min. 3cm longer than user measurement) Remember to include the cushion height.

##

Rear seat height:

- b) *On the wheelchair:* From back of seat tube to the ground.
- Note:** Max. seat height difference rear to front is 13 cm

Back height:

- a) *For the user:* From the seat, including cushion, to be no more than 1 - 2 cm below the lower shoulder blade.
- b) *On the wheelchair:* From back of seat tube to upper edge of backrest upholstery.
- Note:** The user's ability to sit upright has a major influence on the back height and it can therefore differ considerably

Back angle:

Important: The back height depends on the degree of disability. 0° is the angle 90° to the ground. Negative angles are <90° and positive angles are >90°.

Technical Data Overview:

Overall dimensions:

Max overall height: 90 cm
Max overall length: 91 cm

Overall width with:

For 0° camber:
For 3° camber:
For 6° camber:
For 9° camber:

24" rear wheel

SW + 20 cm
SW + 22 cm
SW + 28 cm
SW + 34 cm

25" rear wheel

SW + 20 cm
SW + 26 cm
SW + 32 cm
SW + 38 cm

Please note that the matrix is based on a std configuration:

Std chair 40 x 40 cm; 3° camber; 5,60 cm CoG; Seat angle of 8°

All changes in the configuration might change the seat heights.
