

TARTA®

WHERE THERE IS A WILL THERE IS A WAY

Where there's a will, there's a way. We've always been convinced of that. Willpower allows you to get anywhere, to achieve any goal. It makes you free. It is thanks to an irrepressible willpower that we have created **Tarta®**, the postural backrest unique in the world, which flexes and twists to accommodate all movements. We designed it inspired by nature. Because nature always does what it wants and gives life to constantly evolving structures, capable of adapting to changes in time and space.

We have created it ever-changing and mouldable like sand which, caressed by the wind, forms sinuous dunes. Strong and resistant like the shell of a turtle, a sinuous and agile creature, despite its structure. We have designed the Tarta® **postural backrest** with the user in mind. So this means, sitting in the wheelchair, with maximum freedom and total comfort, you can do whatever you want. Because willpower sets you free. And freedom is a right.

EMYS

EMYS

NAME Tarta Emys
SIZE M-L-XL
HEIGHT 3-4-5 vertebrae
DEPTH standard-contour-deep contour
WEIGHT da 980 g a 1900 g
MODELS 21

INTRO

Designed to surprise.

Emys is the postural backrest revolution.

Compact, flexible and with an original design, it is the ultimate expression of over 30 years of experience in orthopaedic engineering.

Emys is incredibly ergonomic and adapts to your every need, ensuring the right mix of freedom of movement and control. Thanks to the special coupling and uncoupling systems, it is easy to use in every situation.

The foam padding is handmade, breathable, removable and machine washable. That's why with Emys, comfort is absolute, prolonged and guaranteed.

TORSION

The backrest torsion allows all movements to be carried out in absolute freedom, without having to give up the backrest support.

FLEXIBILITY

Thanks to the harmonic steel of the column and its modular structure, the backrest flexes giving maximum freedom of movement. In addition, with Emys you can set the maximum degree of backrest flexibility.

DESIGN

Attractive lines identify a tool that stands out for its design originality applied to ergonomics. In addition, the new profiles in reflective material increase its visibility, making it safe even in the dark.

TRANSPARATION

The space between the slats is designed to ensure maximum breathability and a pleasant feeling of freshness. The padding is covered in breathable fabric, removable and machine washable, ensuring maximum comfort and hygiene.

CUSTOMISATION

Tarta Emys can be shaped as desired to ensure the correct position of the spine, adapt to a kyphosis/lordosis situation and maintain adequate lateral containment. The slats, made of aeronautical aluminium, perfectly embrace and support every back.

COMFORT

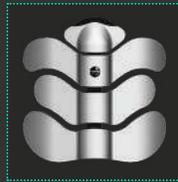

The special shape of the padding combined with the flexibility of the column and the elasticity of the aluminium slats ensure maximum comfort.

CHOOSE YOUR STYLE

You are you. Unique, like no other. That's why we decided to leave Emys like a blank page.

A page to be filled with images, colours, thoughts. Yours. A page on which to write an amazing story. The one you are the star of.

We want Emys, to be more than just a postural back for you. We want it to be a boost towards freedom of movement: the business card of your personality. **No strings attached.**

ORIGINAL

NAME Tarta Original
SIZE S-M-L-XL
HEIGHTS 4-5-6 vertebre
DEPTH standard-contour
WEIGHT da 980 g a 1750 g
MODELS 24

INTRO

Original is the first flexible ergonomic backrest able to adapt to different postural needs by modelling its shape according to the user's needs. It ensures extreme freedom of movement while guaranteeing maximum support. Thanks to its modular structure and the harmonic steel used for the column, Original flexes and extends right where it is needed most. Removable, machine-washable cushions ensure prolonged comfort when sitting.

TORSION

The backrest torsion allows all your daily movements to be carried out in absolute freedom, without having to give up the backrest support.

COMFORT

The padding is made of technical fabric, machine washable and breathable, for maximum comfort. Aluminium provides the backrest with extraordinary lightness and strength.

CUSTOMISATION

Tarta® Original has been designed to adapt to the user's needs. This is how we created a product that can be customised in all its components, from the inclination of the slats to the orientation of the vertebrae to the positioning of the padding. A unique product that moulds itself for your well-being.

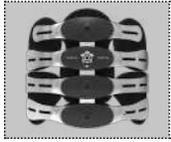

TRANSPIRATION

The spaces between the slats favour the passage of air, for a pleasant feeling of freshness. The breathable technical fabrics used for the padding guarantee the best possible microclimate.

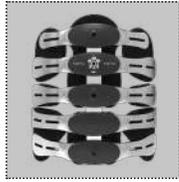

FLEXIBILITY

The harmonic steel of the column and the modular structure of Original leave you free to decide where the backrest should flex and where it should provide more support.

PAINT YOUR STYLE

Let Original become your day-to-day support. Colour your life with personality. Yes, because Original is totally modular not only in terms of support and ergonomics, but it is also fully customisable according to the colour you prefer. This way you can express your creativity using the shade you prefer. Blue like the sky, yellow like the sun or a timeless total black look. Original is a palette of endless colours that enhances your uniqueness.
