

## HIGH TORQUE

Triride presents the new HT motor, real climber to face the most demanding slopes, with high torque even at low rpm and a large traction force.

The HT motor is compatible and enhances all the systems of Triride electronic control (IBS, ACC, MDC)

## FEATURES

- Great traction even at low rpm
- Great driving force, ideal for bariatric users
- Ability to deal with very demanding climbs
- Exciting acceleration
- Exaltation of the Triride electronic control system
- Improved performance of IBS, ACC, MDC systems

**EXCLUSIVE  
MADE BY TRIRIDE**
