Quality for life

Voyager Evo.

Only you are more individual!

When established features get lighter.

There was a time when perfection meant added weight, and stability had to be encumbered by heavy compromises. A time when wheelchairs were only considered solid when they were heavy enough.

The future is lighter, more dynamic and individual. The new, high-end Voyager Evo is of high quality and indestructible. And its weight? That is entirely up to you.

It is built for you, with no compromises. This is because your daily requirements make the Voyager Evo unique. Just like TiggerTom, who has tailored his Voyager Evo for his passion of sports without compromises.

The Voyager Evo – simply you.

Every day is a journey!

Going to work by car? Going shopping in town? City trip to London? An excursion with friends? Or just enjoying yourself? Every day is a journey: Yours! As individual as you.

Adventure tour or everyday trip? Wanderlust or loyalty to homeland? Here today – there tomorrow. Somewhere else entirely the day after. Your perfect companion for every challenge you accept: your new Voyager Evo. Ready to go anywhere, to master all challenges and to live life to the fullest. Where is your journey taking you today?

Voyager Evo. Only you are more individual.

Today is your day! So is tomorrow.

For commuters and football fans. For fair weather grillers and those who enjoy life. For adventure tourists, tube travellers, early risers and globe-trotters. For late risers, gourmet cooks, cinema-goers, farmer's market shoppers and those who break barriers.

For any situation and every day. For anything you can imagine. For you.

What are you waiting for?

Whatever you have planned, your Voyager Evo is there for you. With perfect materials and optimised weight, it is virtually indestructible. Even in a custom design by request.

A true Voyager in other words. Just like you, right?

"Pushing the limits of what I can do ..."

Thomas Frühwirth known as TiggerTom is a professional athlete. In flesh and blood. He has been sitting in a wheelchair since 2004. In 2008 he competed in his first half-ironman. By now he has achieved everything the heart of an athlete desires: world and course records, world championships, new personal bests time and time again.

TiggerTom's number one goal and his daily motivation: enjoying sports!

So what drives you?

Four materials, your wishes – you can't get more individual.

Every day is unique. Every challenge is different. Every wish is your own. The Voyager Evo was developed to fulfil your wishes.

Unrivalled at first glance – unique upon closer inspection.

The modular system offers countless possibilities to tailor the Voyager Evo to your individual requirements and your personal style. Sporty handling, an extraordinary look, matching your size and weight. The Voyager Evo is perfect for you and for your life.

The perfection of individualism: your Voyager Evo.

The modular system

- Standard equipment in aluminium alloy
- Four different materials for its components: carbon, titanium, magnesium or aluminium
- Adapted to your weight, your size and your budget
- Modular material and colour system for perfect adaptation to your requirements
- Variation possibilities, fine-tuning and modification of the seat width and seat depth, tipping point, back angle, clothing protector lip, footplate and wheel locks
- Stability in all modifications, certified by the independent TÜV seal
- Individuality in the highest quality

All around: Aluminium.

Everyday self-confidence. The Voyager Evo with the aluminium frame is ideal for daily challenges. And beyond them. Powerful, lightweight, durable. Feel the dynamics of the city, experience the inspiration of nature, love the elements.

Whatever the challenges you are facing – the Voyager Evo is your perfect complement.

High-performance material: carbon.

Pushing the envelope. Experiencing extremes. The Voyager Evo with carbon components is made for just one limit: yours. Carbon is not only lightweight, it is highly resilient and features an appearance that underscores the claim of a high-performance athlete.

Whatever you want to achieve – the Voyager Evo is your perfect partner.

Highly exclusive: titanium.

Setting yourself apart from the masses and leaving your mark on the world. Titanium leaves a lasting impression. In addition to outstanding material properties, the Voyager Evo appeals with titanium components in an incomparable look.

If exclusiveness is your message for the world – the Voyager Evo defines your image.

The pinnacle of lightweight construction: magnesium.

Wanting everything. Giving your all. Maximum effort. When good is not good enough and the best is no longer adequate, in short: when the world gets too small. Then you go beyond it. Magnesium – a material to meet the highest demands for ultimate performance. It makes the Voyager Evo even lighter, premium – unique.

When you have reached your goals – the Voyager Evo redefines them.
