Welcome to Better Mobility

At Better Mobility we are dedicated to giving you the best experience possible.

Our highly trained assessors are ready to make sure you have all the information you require to make an informed decision. With a huge range of demonstration equipment available, we are always able to offer you impartial views on what's best for you/your patients. We are always refreshing our stock with the latest products, making sure you are able to see and try the best and most innovative products available.

The difference experience makes:

- Thorough assessments provided by highly trained assessors, with a focus on environmental and social as well as clinical wants and needs
- A huge range of equipment from all the brands you know and trust
- Highly experienced and trained service and maintenance engineers
- Customised mobility solutions - to suit you

Welcome to your Better Mobility Experience.

Testimonials

How do you make a Better team?

Firstly, you seek out dedicated, innovative thinkers, who have a true passion for going the extra mile. Then you encourage and support them with continued learning opportunities.

Training courses, on the job training, sharing experiences, and learning from each other is something that we do every day. Lastly, you emphasise great communication, amongst the team members of course, but also with our customers.

Our team, is YOUR team.
Honest, Helpful, Hard-working.

Now that's Better.

Spinal and Active Manual Wheelchairs

Lightweight chairs in folding or rigid frame designs that fit with your active lifestyle

We offer a large range of active manual wheelchairs, always keeping the latest models in stock for you to try. New innovations are constantly becoming available resulting in lighter weight, better performance, and of course greater style and designs.

Our range includes:

- Folding frame chairs for easy transportation
- Rigid frame chairs for the ultimate in lightweight performance
- Lightweight strong frames and component materials including Aluminium, Titanium, Carbon Fibre and Carbotecture
- Seating and back systems to suit your postural & comfort needs
- The latest in style and design including custom colours

Style and Design

Do you want people to see you rather than your chair? Or perhaps you want to make a bold statement with your chair, stand out from the crowd?

With a huge range of options available we can make your chair truly individual. Pink spoke wheels anyone?

Optional Accessories

We carry a range of accessories to compliment your active chair and make life easier. Backpacks, mobile phone holders, underseat secure pouches, and much more, all designed to fit your active chair.

We provide a wide range of cushions and seating, see page 14 for more details

Folding Frame Active Chairs

New innovations in folding active chairs mean they are becoming more compact and transportable while increasing rigidity and performance, try one today and experience the difference for yourself!

Rigid Frame Active Chairs

The tightest, the lightest, the best performing. Better Mobility have the latest and greatest range of rigid active chairs for you to try.

With new materials and design improvements, if your current chair is more than three years old, it's time to see what's new - you'll be impressed with the look and feel of our active chairs.

Sports and Activity

What's stopping you?
We can help you regain your sense of adventure!

Whether you're looking to get back outdoors, or you're looking to try outdoor adventure for the first time, Better Mobility have a wide range of equipment to help you along the way.

Our range includes:

- All terrain powerchairs that can tackle the roughest ground
- Handcycles for beginners all the way through to experienced racers
- All terrain outdoor manual chairs that go with ease where normal active chairs can't cope
- Custom sports chairs to give you the competitive edge

Powered All Terrain Chairs

Whether your adventure involves tackling unpaved roads to the local shops, walking the dogs on unpaved paths, or taking the kids to the park and tackling the grassy hills, we've got a chair that will suit you.

Manual Sports Chairs

Faster, lighter, stronger, better. Using the latest in materials we can help you improve your performance. With reduced weight and enhanced design, our chairs can give you a competitive edge.

Hand Bikes

Similar to Hand cycles, Hand Bikes are great for improving strength and getting the most out of the outdoors. However these impressive cycles fix onto your wheelchair and are available in 3 versions, Manual, Powered and Hybrid to best suit your style.

The Ultimate in
Outdoor Mobility

Handcycles

Recreational handcycles, perfect for a weekend ride with the family are available in both adult and child sizes. We also provide for the more elite user with our range of competitive handcycles.

Powered Wheelchairs

Whether for indoors or outdoor use, we have a range of powered wheelchairs

With a range of bases, seating and controls to choose from, Better Mobility can help you to get exactly what you need and want in your powered wheelchair. Don't be limited by companies only offering a small selection of powerchairs, see and try a range of different chairs with us.

Our range includes:

- Front wheel, mid wheel, and rear wheel drive bases
- A range of different controller and joystick options to suit
- Bespoke seating and positioning solutions
- Powered seat rise, tilt, and recline functions, as well other powered positioning options

Control Options

Everyone is different, and you may find standard controllers difficult to use. Better Mobility has extensive experience with different forms of controllers, including attendant controls, different joystick types, buddy buttons, head switches, tray mount controls and much more.

Better Positioning

Many powerchairs have manual and powered options available to suit your requirements.

Seat rise, tilt, recline, powered legrests, lights, indicators, and many more are available.

Our team are happy to help you with any advice you may need.

A full range of seating and back solutions are available, see page 14 for more

Indoor/Outdoor Powerchairs

Smaller, and more compact, indoor/outdoor chairs are mainly designed for an indoor environment, while still being able to tackle smoother outdoor surfaces.

Outdoor/Indoor Powerchairs

Mainly designed for outdoor environments, with chassis, motors and wheels designed to tackle uneven surfaces, whilst still performing well indoors.

Tilt-in-Space and Comfort Wheelchairs

Many of our tilt-in-space and comfort chairs are compatible with different manufacturers seating systems to give you a perfectly comfortable and supportive fit

Tilt-in-Space chairs are ideal for comfort and pressure relief. Especially suited to people who have weakness associated with Stroke, or who are in a rehabilitative situation, as well as users in palliative care.

Our range includes:

- Various sizes from children's to bariatric
- Good postural support customised to suit your needs
- Superb pressure relief, achievable with tilt available up to a total of 55 degrees
- Swift delivery when hiring TIS and comfort chairs, as time can be an important factor

Adjustability at it's Best

As everyone has different needs and requires different levels of support, our TIS and Comfort Wheelchairs offer adjustable features to get the fit just right.

Seating and Back Options

Tilt-in-Space chairs can be customised with a range of different back and seating options as well as different head rests, armrests, legrests, and positioning belts to achieve a supportive and comfortable seating position for the user.

Varying degrees of tilt available

Come, Sit, Stay a While

Suitable for situations where someone needs to be in a chair for an extended period of time, TIS and comfort chairs help to provide support and comfort.

Surprisingly easy to manoeuvre, these chairs allow carers to change surroundings and location with ease.

Ideal for Passive Users

Comfort and TIS chairs are ideal for the passive user, providing postural support for optimal functions, while providing pressure relief and comfort.

Basic Manual Wheelchairs

Every wheelchair should have a cushion, even if you only use the chair occasionally. See our basic cushions on page 14

Long gone are the days of having to suffer with the heavy "Hospital chairs" that were built like a tank and were probably harder to manoeuvre! Today's basic manual wheelchairs are lighter and easier than ever to propel, push, and fold.

Our range includes:

- ➔ Adaptability - We always remember that it's not always just the chair user, but also the carer who needs to be comfortable with the chair, it must suit everyone involved
- ➔ A wide range of options are available including reclining backs, elevating legrests, and chairs built specifically to fit you

Complicated Needs? Simple!

Depending on your requirements Better Mobility have basic manual wheelchairs in stock and ready to go at a moments notice.

We also provide a comprehensive assessment of your needs in order to guide you in the purchase or hire of a chair to address more complex needs.

Accessories and Adaptations

At Better Mobility we have a vast range of extra features available for manual wheelchairs, and if it doesn't exist, we'll usually come up with a custom adaptation to suit your requirements!

Many manual wheelchairs are configurable - we can order them to your requirements - truly built for you!

Lightweight and Compact

Travelling, whether to the Doctors office, or on a cruise ship, need never be a chore again.

Our huge range of lightweight, yet robust and reliable wheelchairs, are easy to handle and ready to go when you are!

It's Your Chair, Your Choice

Better Mobility have access to all the major manufacturers which allows us to offer you the greatest selection.

We will never recommend you buy a wheelchair that pleases us, it has to suit you, and we will always recommend the best chair for your needs, while offering you a wide selection to choose from.

Power Add-on Kits

Extend your range with a power add-on kit for your wheelchair

Power add-on kits provide powered assistance to either the chair user or the attendant to make propulsion and/or pushing easier. Our power add-on kits can easily attach to your existing chair in most cases and bridge the gap between manual and powered wheelchairs.

Our range includes:

- ➔ Power assisted wheel hubs that take the effort away from propelling your chair
- ➔ Add-on power drive wheels that take the effort out of pushing for the carer
- ➔ Add-on electric drive units that can be controlled using a joystick by either the chair user or a carer, or by both

Never Have to Push Again

Powered drive wheels come in a neat package that is easily connected and removed.

Go Further, With Less Effort

Powered wheel hubs make every push go further and work harder with less effort from you. Easy to remove, your manual wheelchair remains easy to transport.

Fits to your current chair or available as a package

Powered Add-on for Carers

Powered drive wheels come in a neat package that is easily connected and removed.

Problems occur due to carer / wheelchair user size differences and carer fatigue. A powered add-on package can eliminate this problem entirely. Making outings more enjoyable and allowing you to go further.

Boldly Go...

Better Mobility can help you turn your manual wheelchair into a powered wheelchair easily with an electric drive unit. The ingenious design means you don't have to give up the feel and familiarity of your manual wheelchair, or change to a powerchair.

In one sleek unit you can turn your existing chair into a powered one you drive yourself, alternatively controls can be mounted for attendant use.

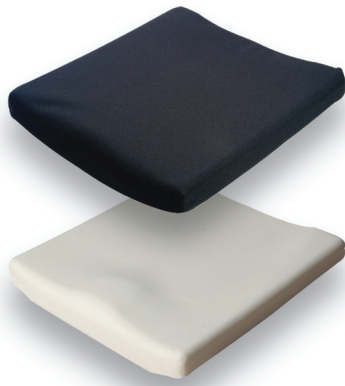

Seating and Positioning

Better Mobility's seating and positioning team have many years of experience and are continuously learning about new innovative products and methods to help you achieve total comfort, support and pressure relief.

Our range includes:

- ➔ Basic cushions for positioning and comfort
- ➔ High pressure relieving cushions with varying levels of pressure relief as well as adaptable positioning
- ➔ Positioning belts, lateral supports, seating adjustment accessories such as pommels and positioning equipment
- ➔ A variety of headrests & back supports available

Basic Wheelchair Cushions

Every wheelchair should have a cushion on it, even if it's only used occasionally or for short periods of time.

Wheelchairs are designed to be used with a cushion, and Better Mobility stock a wide range of basic cushions in different sizes, materials and covers to suit your needs.

Pressure Relieving and Positioning Cushions

For the long term or at risk, who require better support, or pressure relief, there are more cushions than ever now to choose from.

You can be sure that Better Mobility will have just what you need, and we are always happy to advise and demonstrate all of the benefits of these cushions to you.

Seating for Complex Needs

Optional Back Systems

When more stability is required, optional hardshell back support systems are available.

These vary from simple lumbar support, to deeply contoured, full coverage backs. These back systems are compatible with a range of headrest supports, lateral supports and positioning support belts.

Seating for Complex Needs

We pride ourselves on our consistent delivery of great posture and pressure relief for our customers. Better Mobility work hand in hand with therapists and carers when helping a client to achieve their best position.

Children and Young Adults

Solutions
as unique
as your child

At Better Mobility we know that all children are unique, and their mobility equipment should be too. With a huge choice of products specifically built for children and young adults there is no need to tolerate limited selection or compromise on style. With a choice of custom colours, sizes and accessories your child can make their chair reflect who they are.

Our range includes:

- Trendy yet supportive children's buggies that are easy to fold and stow
- Wheelchairs for toddlers through to young adults
- Tilt-in-space chairs specifically for children
- Cushions & back support systems for children / young adults

Buggies, Adapted Wheelchairs and Spica Boards

We have a wide range of young childrens mobility equipment available.

At Better Mobility we supply many parents and hospitals with lightweight childrens equipment such as buggies and spica boards. If you require something specific for a short period of time, ask us about hiring what you need.

Childrens Seating and Positioning

There is no need to compromise when it comes to your childs changing needs. Why try to make an adult seating system fit a child when there are fantastic cushions and back systems designed just for children?

Better Mobility can advise you on all that's available and is suitable for your child's needs.

Children's Powered Mobility

Helping a child to use appropriate mobility equipment from a very young age to enable them to interact with their peers and keep exploring is a key value of us at Better Mobility.

The range of powered mobility available for children can be confusing and overwhelming. We are here to help you try different chairs and decide what's right for your child.

Manual Wheelchairs

Whether your child is ready for their first wheelchair, or they're ready for the next level, we can help them design the chair that works for them.

Size and equipment choice notwithstanding, being able to choose colours, custom spoke guards, their name embroidered on their chair upholstery, or a mobile phone holder for your teen can make their chair truly personal.

Bariatric Equipment

We supply a varied range of Bariatric equipment

For those requiring bariatric equipment, Better Mobility are able to provide all types and sizes. Including basic wheelchairs, riser recliner chairs, specialty walking aids, beds, and extra deep pressure care cushions.

Our range includes:

- Bariatric manual and powered wheelchairs
- Beds, mattresses and extra deep bariatric wheelchair cushions
- Walking and everyday mobility aids
- Bariatric bathing and showering aids, commodes and toilet aids
- Heavy-Duty hoists, moving & handling equipment

Bariatric Walking Aids

Bariatric users require equipment specifically designed for their size and weight.

Better Mobility have an extensive range of equipment to suit individual needs including specially produced walking aids.

Bariatric Living Aids

Let us help you with your requirements from our range of bariatric daily living aids. Specially manufactured bathing, toileting, moving and handling aids, and much more.

Bariatric chairs available from passive to active

Powered Bariatric Mobility

Bariatric patients often have different positioning requirements than standard users, and Better Mobility are familiar with these requirements.

When it comes to powered mobility there is a vast range of different equipment which may be suitable, and we are happy to assist you in making your choice.

Bariatric Manual Wheelchairs

Due to the increased weight capacity required, Bariatric manual wheelchairs must be robust and provide for the safety of both the user and carer. Better Mobility can help you to choose the chair which meets your requirements.

Bathing, Moving and Handling

We stock an extensive range of bathing and moving/handling products

Bathing and moving and handling are imperative parts of everyday life. Better Mobility have the equipment to make these easier for both carer and patient. Everyone has different needs, and we have the equipment to satisfy all needs.

Our range includes:

- Both home environment and clinical environment bathing and toileting aids available
- A range of manual and powered hydraulic hoists
- Stylish commodes that fit in with your home decor
- Toilet surrounds, raised toilet seats, drop down rails
- Bath seats and boards, suction and permanent grab rails

Motorised Bathlifts

Enjoying a relaxing bath need not be a thing of the past. Better Mobility's range of motorised bathlifts can help you to enjoy that soak in the tub again.

With so many different options available, there is one to suit you, and we are happy to demonstrate them to you.

Slings

To compliment the available hoists, your choice of bathing, mesh, fabric and spacer slings are available all in different sizes to suit your individual needs.

Ask us about our range of hoists, and patient handling equipment available

Commodes and Shower Chairs

No matter what your requirements, we have the products to help you. Commodes and shower chairs in various sizes, with supportive attachments, tilt-in-space functions and padding as required.

Hoists and Standing Aids

Better Mobility carry a range of safe and trusted hoists and moving equipment in various sizes and specifications depending on your requirements.

Heavy duty hoists, motorised, hydraulic and compact hoists in addition to various types of lifting mechanisms are all available, contact us to discuss your requirements.

Beds and Mattresses

Profiling beds
and specialist
mattresses

Whether you require a clinical care bed, or a divan style profiling bed that fits in with your home's decor, you can be assured of the latest in design and technology with Better Mobility. We provide beds and mattresses from a range of manufacturers, so you never have to compromise on what you want.

Our range includes:

- Sophisticated nursing beds with a range of available options which you can customise to suit your needs
- Classically designed British made divan and wood beds which can be built to your required size and level of required care

Profiling Beds to Suit Everyone

Our range of available profiling beds is extensive, and Better Mobility supply from a range of the leading manufacturers.

Nursing beds with high-low function, divan or traditional wooden style to fit into your home decor, double beds with separate functions to suit couples, custom lengths, and many more options are available.

Accessories

We carry a range of accessories for the bedroom, including overbed tables, patient helpers, lifting poles, side rails, support rails to help with transfer, blanket frames, rope ladders and much more.

Pressure care mattresses

Pressure Care

In addition to our wide range of pressure relieving cushions, we also stock other pressure care aids. Single and double heel pads, mattress wedges, overlays and more are available.

Mattresses & Pressure Care

Many different mattresses are available, ranging from pocket sprung, through latex foam, closed cell memory foam, mattresses with built in shear reduction materials, and air exchange mattresses specially designed to prevent and help heal pressure ulcers.

Riser, High Seat and Comfort Chairs

Riser chairs available in a range of styles

There is nothing quite as good as relaxing in your favourite chair. Unless of course you find it difficult to get in and out of, or to find a position you are comfortable in. We have a huge range of riser recliners to choose from and are happy to advise you on the benefits of each.

Our range includes:

- Single and dual motor chairs, as well as tilt-in-space riser chairs for good pressure relief
- Top quality risers and furniture, including our best selling range, which is built in Britain to your specifications

High Seat Chairs

In addition to our furniture range, we also carry a large selection of high seat chairs.

Many of these chairs are available in traditional styles to fit in with your home's decor. While they may look like a standard chair, the difference is in the detail. Strong wooden or reinforced fabric arms combined with seat heights made to fit you, straighter backs, and lumbar support make these chairs comfortable and supportive.

Sizes to Suit

You wouldn't wear trousers four sizes too big, so why sit in a chair that's the wrong size? Let us provide you with an assessment which will help you to choose the correct chair for you. Correct posture is very important and a chair that's too large for you can be just as bad for your posture as a chair that's too small.

Caring Chairs

Combining postural support, pressure relief and ease of manoeuvring, comfort or caring chairs are available to suit individual requirements.

Standard Hire Equipment

Temporary, readily available solutions for any situation

Our hire solutions can help when you need quick access to mobility equipment unexpectedly. Waiting for your permanent equipment to be delivered? We can make sure you're covered while you wait. Simply call us to discuss your requirements.

Our Standard Hire range includes:

- Standard wheelchairs
- Showerchairs
- High seat chairs
- Riser recliners
- Mobility aids

Showerchair Hire

Rehabilitation at home can be daunting when you don't have the right equipment available. Our fleet of showerchairs and other equipment can help you to remain safe and supported in the comfort of your own home. From showerchairs to walkers and even knee walkers, we can provide all your mobility needs on short term hire.

In Home Hire

Having hip replacement surgery? Difficulty getting up from your armchair after an illness, or after a fall? Doctors often recommend a high seat or riser chair while you recover.

Why go to the expense buying one if you only need it for a short time? Get in touch to find out how we can deliver what you need, when you need it, and take it away when you are finished with it.

Free set up and adjustment with your hire

Manual Wheelchair Hire

We provide high quality, lightweight chairs that are easy to push, and fold up neatly to fit in the boot.

A trip to the doctor, a holiday on the coast, taking Mum to see the sights and knowing it will be too much walking for her, there are many reasons to hire a wheelchair.

With a range of sizes available on short notice you can be sure that these moments won't be missed.

Clinical Hire Equipment

If you're unsure whether we provide a specific item, contact us to discuss the equipment to best suit your needs

Sometimes you need specialised equipment urgently, or your patient requires a size or product you do not have.

We provide most clinical equipment on a hire basis from active manual chairs to electric beds for hospitals, private homes and care homes.

If you're unsure whether we provide a specific item, contact us and we can find the equipment to best suit your patient's needs.

Everyone and every situation is different, which is why their equipment should be too!

Changing equipment needs can be handled quickly, easily and affordably.

Our Clinical Hire range includes:

- Active wheelchairs
- Paediatric wheelchairs
- Tilt in space wheelchairs
- Powerchairs
- Specialist showerchairs
- Hoists and Standing aids
- Electric Beds
- Positioning equipment
- Pressure relieving cushions

Showerchair and Bed Hire

We offer specialist shower chairs and Electric Beds to provide the best rehabilitation possible. Our equipment can be used at home or in the hospital.

Hoists and Standing Aids Hire

Many clients require a hoist or standing aid for transporting their patients in a hospital or for individuals in their home during rehabilitation.

Custom solutions on a temporary basis

Specialist Wheelchair Hire

There are many situations where you need a specialised wheelchair or powerchair for a short period of time.

Whether you need an active chair for travelling, a paediatric chair for a broken leg, a tilt in space chair for a parent in a nursing home or a powerchair to get around the city; we have a range of specialist equipment in a range of sizes and models to suit your specific needs.

Further Solutions

We offer a wide range of daily living and mobility aids in our showroom

For a full range of daily living and mobility aids, contact us. We have different catalogues showcasing different products, and are happy to discuss your requirements with you and what solutions are available.

Our range includes:

- Aids to daily living, such as reachers, and raised toilet seats
- Specially designed kitchen / dining products, cutlery & dishes
- Walking aids, sticks, crutches, three and four wheel walkers
- A range of top quality scooters
- ...and so much more we couldn't fit it all in, give us a ring to discuss what you're looking for

Products for In and Around the Home

We provide homeware and daily living aids for every area of your home and your life. Contact us to find out about the thousands of products designed to accommodate your needs.

Aids for making your life easier

Mobility Scooters

With so many scooters to choose from, how do you know what is best? We have years of experience with scooters, and only carry the most reliable and safe brands.

We can give you all the information you need to make an informed decision. We also carry a selection of accessories, ramps and of course, we service what we sell, with experienced service engineers that will get you back on the road quickly and safely.

Walking Aids

When you find you're needing a bit of stability, or are finding walking unaided harder than it used to be, a walker is a great solution.

With your choice of three wheels for more maneuverability or four for added stability, we have a wide range for you to try. Optional accessories include larger shopping bags and trays with non slip mats for carrying things indoors.

Individual Servicing and Servicing Contracts for Individuals and Carehomes

We offer a range of choices when it comes to the maintenance and servicing of your equipment. You can choose to have servicing as needed or select one of our servicing contracts below. We are also happy to assist your care home, hospital, or clinic with your maintenance and servicing of wheelchairs and other equipment. Please get in contact with us to discuss your requirements.

Safety. Peace of Mind. A Better Mobility service package can give you that.

At Better Mobility we know that buying your chair or scooter is a wonderful and exciting experience. A scooter service package or wheelchair service package can help to make sure that feeling stays. Not having to worry about unexpected breakdowns & repairs slowing you down, and knowing that your vehicle will be serviced annually means you can relax, and get on with doing what you do. Leave the worry to us. Our team of manufacturer trained service engineers can attend to your repair either in our workshop, or at your address, whether that's at a Clinic, Care home, School/College or in your own home. Better Mobility offer a monthly payment option to help you budget, or you can save even more by paying up front.
